Dear Potential Client,

First, let me thank you for choosing my professional services! I will do my best to provide you with a useful and meaningful therapeutic experience. To make our first meeting more efficient, I provide the following documents for you to read and fill out ahead of time:

- (1) **AGREEMENT AND INFORMED CONSENT FOR TREATMENT** outlines my policies and the therapy agreement.
- (2) **NOTICE OF PRIVACY PRACTICES** explains the federal regulations and my practices regarding the use and disclosure of your health information.
- (3) **PAYMENT CONTRACT FOR SERVICES** explains my payment policies.
- (4) **NEW CLIENT INFORMATION SHEET** helps me to better understand you and make our first few sessions more productive.

Please complete these documents and bring them to your first appointment, along with your health insurance card. If you have any questions, please feel free to contact me beforehand. We can also discuss your questions during our first meeting. I realize that this is a lot of information to digest, and I will do everything I can to make it clear.

Paperwork aside, it is common for new clients to feel nervous about starting therapy, and I understand how stressful it can be. Fortunately, most people begin to feel more comfortable with the process in just a few sessions. In the meantime, it might be helpful (for both of us) if you would take some time to think about what you want from therapy. You might even make some notes about your goals and what is most important to you, so that we can discuss these together during our first few sessions.

I look forward to meeting with you! If I can provide any additional information, please contact me.

Sincerely,

Jeffrey Noethe, Ph.D.

Therapist Letter To Client:

A Therapist's Guide to Writing in Psychotherapy Michael D. Reiter, 2023-06-29 This guide practically aids mental health professionals in understanding and improving their therapeutic and academic writing demonstrating how the written word is an invaluable tool to document assess and promote change with those in and outside the therapy room Exploring the various ways writing occurs in psychotherapy professions Michael D Reiter comprehensively covers the range of the written word from progress notes and assessment documentation to journaling and therapeutic letters as well as contacting larger systems such as report writing and grant applications Chapters are formatted to include the purpose and function of a particular type of writing before providing multiple examples so therapists can apply this in their own practice This book aims to help all therapists regardless of academic training or therapeutic modality to incorporate these ideas into their work This book is designed for mental health professionals in a variety of settings including counselors therapists social workers family therapists and clinical psychologists This book is useful for graduate students as well as those already in practice

Deconstructing Psychotherapy Ian Parker, 1999-03-30 I enjoyed this book and think that it should find a grateful and attentive readership in the practical field as well as being a central text in academic settings It will also be well received by those like myself for whom the interest is more in deconstructing than psychotherapy Dialogues This book takes the discursive and postmodern turn in psychotherapy a significant step forward and will be of interest to all those working in mental health who are concerned with challenges to oppression and processes of emancipation It achieves this by reflecting on the role of psychotherapy in contemporary culture developing critiques of language in psychotherapy that unravel its claims to personal truth and the reworking of a place in the transformative therapeutic practice Deconstruction is brought to bear on the key conceptual and pragmatic issues that therapists and clinical psychologists face and the project of therapy is opened up to critical attention and reconstruction The book provides clear reviews of different viewpoints and will help readers to understand the complex terrain of debates

Functional Analytic Psychotherapy Made Simple Gareth Holman, Jonathan W. Brief Cognitive Behaviour Therapy Berni Curwen, Stephen Palmer, Peter Ruddell, 2018-01-08. This timely new edition describes how to use cognitive behaviour therapy successfully with clients in a brief time-limited way. After reading this book, therapists will be able to provide effective help to clients suffering from a wide range of disorders including anxiety, depression, obsessive compulsive disorder, and post-traumatic stress, or those who are suicidal. Following an explanation of brief therapy and the theory behind cognitive behaviour therapy, the authors outline strategies for helping clients overcome unhelpful beliefs and thought patterns through all stages of counselling. Using illustrative case material throughout, the updated book includes extra practical material for the client and therapist to use during the counselling process, a brand new chapter on brief CBT in groupwork, expansion of discussion on counselling suicidal clients within a brief CBT framework. Every trainee psychotherapist should own a copy of this book, and it is important reading for all new health professionals working in the NHS and private practice.
