

Trane Hyperion.[™] Designed from the ground up to be the industry's most advanced air handler.

Features and components applicable to Hyperion Series only, may vary by model and are shown for illustrative purposes only.

1 Unique Cabinet Design

Trane Patent

Tough, double-wall construction with enclosed foam insulation makes Hyperion both lightweight and durable while virtually eliminating sweating and condensation. The Hyperion was designed so less moisture and fewer dust particles are drawn in from garages, attics or crawl spaces. The cabinet interior is also easy to clean, helping improve indoor air quality.

2 Fully Enclosed Insulation

Trane Patent

While other air handlers use metal cabinets insulated by loose fiberglass and foil, Hyperion's unique cabinet uses insulating foam between the cabinet walls much like a refrigerator. This prevents loose, fibrous insulation from breaking off and entering the air that your family breathes.

3 All-Aluminum Coil

Trane Patent

Substantially more durable than conventional copper coils, for prolonged efficiency, longer system life and less chance of refrigerant leaking into the atmosphere.

Hyperion Air Handlers – There's a revolution in air movement for every home.

Hyperion XL (TAM7 and TAM8)

For the ultimate in efficiency, the Hyperion XL's variable-speed blower motor fine tunes airflow, while its Comfort-R[™] technology controls humidity. Many models feature communicating technology to optimize the performance and energy efficiency of a matched system.

Hyperion XR (TAM4 and GAM5)

Built with a multi-speed blower for quieter performance, the Hyperion XR helps your Trane matched system deliver impressive efficiency all year long.

Hyperion XB (GAF2/T2)

As part of a matched system, the durable Hyperion XB meets or exceeds all standard energy requirements, and Trane's high standards for reliability.
