Transforming California A Political History Of Land Use And Development:

Transforming California Stephanie S. Pincetl, 2003-03-10 In *Transforming California* Stephanie Pincetl argues that the transformation of nature in order to enhance economic development lies at the heart of much of the state's recent history. She sees late twentieth century California on a path of continued environmental degradation gripped by cynicism about government. *Transforming California* describes the evolution of the state's institutions of government as they apply to land use and development and it shows how land use decisions affect people's quality of life and their daily interactions with each other and with their environment. Pincetl offers an alternative vision for the renewal of the democratic spirit and process in California and for a reconciliation with nature.

Ecosystems of California Harold Mooney, Erika Zavaleta, 2016-01-19 This long anticipated reference and sourcebook for California's remarkable ecological abundance provides an integrated assessment of each major ecosystem type its distribution structure function and management. A comprehensive synthesis of our knowledge about this biologically diverse state. *Ecosystems of California* covers the state from oceans to mountaintops using multiple lenses past and present flora and fauna aquatic and terrestrial natural and managed. Each chapter evaluates natural processes for a specific ecosystem describes drivers of change and discusses how that ecosystem may be altered in the future. This book also explores the drivers of California's ecological patterns and the history of the state's various ecosystems outlining how the challenges of climate change and invasive species and opportunities for regulation and stewardship could potentially affect the state's ecosystems. The text explicitly incorporates both human impacts and conservation and restoration efforts and shows how ecosystems support human well being. Edited by two esteemed ecosystem ecologists and with overviews by leading experts on each ecosystem this definitive work will be indispensable for natural resource management and conservation professionals as well as for undergraduate or graduate students of California's environment and curious naturalists.

Transforming California Stephanie Sabine Pincetl, 1999 *Transforming California* describes the evolution of the state's institutions of government as they apply to land use and development and it shows how land use decisions affect people's quality of life and their daily interactions with each other and with their environment.

BOOK JACKET *A Companion to American Environmental History* Douglas Cazaux Sackman, 2010-02-12 *A Companion to American Environmental History* gathers together a comprehensive collection of over 30 essays that examine the evolving and diverse field of American environmental history. Provides a complete historiography of American environmental history. Brings the field up to date to reflect the latest trends and encourages new directions for the field. Includes the work of path breaking environmental historians from the founders of the field to contributions from innovative young scholars. Takes stock of the discipline through five topically themed parts with essays ranging from American Indian Environmental Relations to Cities and Suburbs.
