The Development of Early Childhood Education in Europe and North America Harry Willekens, Kirsten Scheiwe, Kristen Nawrotzki, 2015-07-06 The public provision of early childhood education has developed at different rates across individual countries over the past two centuries This book provides the historical background to explain how these national differences occurred with particular reference to welfare and educational systems to highlight how particular influences grew Dewey and European Education Jürgen Oelkers, Heinz Rhyn, 2012-12-06 Although John Dewey's ideas have been of central interest in Anglo Saxon philosophy and history of education it is only recently that similar interest has developed in continental Europe Deweyan philosophy of education has had to pass through national filters which meant that it was received in national contexts of reform The German Dewey was differently construed to the French Italian or English Dewey This seems to change after 1989 and the fall of socialist education when interest in Dewey increased The new political and philosophical interest in Dewey has to do with the lost alternative socialism and thus with the opening of Eastern Europe and the new problems of education within a worldwide community This volume stresses two points The original interest of European education in Dewey will be presented in case studies concerning different national contexts and thus different Dewey's What can be called the renewal of interest will be argued from different sides It is our intention to show that today's interest in Dewey is not the remake of the reception within the different camps of progressive education This volume will be of interest to philosophers of education historians of education and people engaged in the philosophy history and the reception of Dewey Kindergarten Narratives on Froebelian Education Helen May, Kristen Nawrotzki, Larry Prochner, 2016-11-03 Kindergarten Narratives on Froebelian Education showcases the latest scholarship and historical understandings concerning the casting of the kindergarten idea abroad across cultures continents and centuries Each chapter reveals previously unknown narratives of intrepid endeavour political pragmatism and pedagogical innovation that collectively provide insight into the transformation of Froebel's ideas on early education into a global phenomenon Across global contexts each chapter presents a case study of the ideas scattering abroad illustrative of the movement of ideas curricula and pedagogical change in effect taking the kindergarten beyond the geographies and pedagogies of its German beginnings and borders Chapters draw on historical examples of Froebelian education from The Netherlands New Zealand Japan Sweden the UK and the USA In the journal History of Education in 2006 Froebelian history scholar Professor Kevin J Brehony 1948 2013 lamented the relative neglect of the history of early years education at the same time there was a heightened global social and political interest in educating the young child In this book an international team of contributors respond to Brehony's suggestion that historical perspectives can play a role in current debates and suggest ways historical narratives might inform policies and practices in twenty first century early childhood education care settings and contexts Reconnecting past lessons and insights with present and future concerns for early education young children and their place
