

VANAIR Genair® 125 to 185 CFM Underdeck Compressor/Generator

A Space-saving System

Totally contained underdeck within the truck's frame rails, the patented Genair® dual power system replaces the need for separate engine-drive air compressors, generators, or power inverters by providing everything you need in a single unit. The Genair® is the perfect choice for plastic pipe fusion, TV pipeline inspection, and other on-board air compressor/AC electric power demands.

Rotary Screw Reliability, AC Accessibility

As the first company to utilize Power Take-off (PTO) technology for rotary screw air compressors, Vanair is the also the one and only company that has exclusive rights to incorporate Sullair's® rotary screw air end into every patented Genair® unit. The Sullair® air end is proven to be the most reliable and durable compressor air end in the industry.

Vanair Dependability

Every product that Vanair designs, engineers, and manufactures is backed by years of technological experience, expertise, and a commitment to continuous improvement. From installation assistance and operations training to comprehensive maintenance kits and troubleshooting techniques, Vanair complements its standard five-year compressor air end warranty with an optional lifetime warranty.

Save weight, space, and money with the Genair® – an underdeck unit that combines the power of a 125 to 185 CFM air compressor with the convenience of a patented, integral 6,000- to 10,000-watt AC generator. The Genair® system maximizes the power of your truck's engine by enabling you to access both pneumatic and electric power via the PTO drive.

One PTO, Two On-board Functions

Vanair Underdeck 125 to 185 CFM Air Compressor
and 6,000- to 10,000-watt AC Generator
