and other essays William Christie, 2016-06-06 The Romantic period is the most appealing but also the most confusing period of English literature for the student Crucially this book distinguishes between the Romantic as modern critics use the term and the romantic as it was used during the period itself The Two Romanticisms and Other Essays is a collection of critical essays on Romanticism and select Romantic texts designed to help teachers and students to make sense of the period as a whole and of the poems and novels that appear most frequently on school and university curricula Each chapter offers a self contained reading of a different canonical work while engaging with broader themes Through close readings of Jane Austen Lord Byron Samuel Taylor Coleridge John Keats Mary Shelley Percy Bysshe Shelley and William Wordsworth Professor Christie explores the complexities of the Romantic period and offers fresh insights into pivotal Romantic texts Red Bird Mary Oliver, 2008-04-01 Red bird came all winter firing up the landscape as nothing else could So begins Mary Oliver s twelfth book of poetry and the image of that fiery bird stays with the reader appearing in unexpected forms and guises until in a postscript he explains himself For truly the body needs a song a spirit a soul And no less to make this work the soul has need of a body and I am both of the earth and I am of the inexplicable beauty of heaven where I fly so easily so welcome yes and this is why I have been sent to teach this to your heart This collection of sixty one new poems the most ever in a single volume of Oliver s work includes an entirely new direction in the poet s work a cycle of eleven linked love poems a dazzling achievement As in all of Mary Oliver s work the pages overflow with her keen observation of the natural world and her gratitude for its gifts for the many people she has loved in her seventy years as well as for her disobedient dog Percy But here too the poet s attention turns with ferocity to the degradation of the Earth and the denigration of the peoples of the world by those who love power Red Bird is unquestionably Mary Oliver s most wide ranging volume to date *The Ladies' Home Journal* Edward William Bok, 1989 **The Truro Bear and Other Adventures** Mary Oliver, 2008-10-01 From a poet who teaches us the beauty and magic of the natural world comes a reminder that this world includes the creatures with their thick fur their shy and wordless gaze Their infallible sense of what their lives are meant to be In The Truro Bear and Other Adventures Mary Oliver brings together ten new poems thirty five of her classic poems and two essays all about mammals insects and reptiles The award winning poet considers beasts of all kinds bears snakes spiders porcupines humpback whales hermit crabs and of course her beloved and disobedient little dog Percy who appears and even speaks in thirteen poems the closing section of this volume As Ren e Loth has observed in the Boston Globe Mary Oliver who won the Pulitzer Prize in poetry in 1983 is my choice for her joyous accessible intimate observations of the natural world She teaches us the profound act of paying attention Tell me what is it you plan to do with your one wild and precious life Mary Oliver The Summer Day one of the poems in this volume Weekly World News , 1999-12-28 Rooted in the creative success of over 30 years of supermarket tabloid publishing the Weekly World News has been the world s only reliable news source since 1979 The online hub [www weeklyworldnews com](http://www.weeklyworldnews.com) is a leading entertainment news site Sport, Media and Regional Identity Simon

Roberts,2015-11-25 The increasing potency of identity politics across Europe often sees sport acting as a vehicle for the promotion and celebration of regional and sub national identities However while the relationship between sport the media and national identity has featured in numerous academic and political debates in recent years the links between sports media and regional identity have received little attention This seems a curious oversight because the links between sport and region frequently become a celebration of the local and the distinctive emblematic of community and continuity This volume will explore that sense of the counter hegemonic where sport is celebrated by a media often keen to promote notions of difference which might verge on rebellion in some contexts conceived as resisting global homogeneity or national hegemony At other times they may merely reflect a commercial nose for the local audience s tastes but there is always the sense of preserving something important a celebration of the diversity that makes us human This book considers the centrality and cultural significance of particular sports or clubs to regional and sub national identities across Europe and beyond adopting a comparative approach to the mediatized nature of such portrayals
