The King's Ranger Edward J. Cashin, 1989 Using Thomas Brown's career as the thread to weaving together such aspects of the American past as colonial migration Indian diplomacy British evacuation and the formation of new settlements in the Caribbean Cashin provides a lucid panoramic view of the Revolutionary period in the South William Bartram's Visual Wonders Elizabeth A. Athens, 2024-09-10 Pennsylvania naturalist William Bartram 1739 1823 is best known as the author of a travelogue describing his botanizing journey through the American South in the late eighteenth century Writing was not however Bartram's only or even preferred method of recording the natural world around him His deeply unconventional drawings depicting sentient plants and hybrid organic forms lie at the heart of his understanding of nature With this book Elizabeth Athens considers the strangeness of Bartram's graphic enterprise exploring the essential role his renderings played in his natural history For Bartram the making and interpretation of figures on a surface was a dynamic and collaborative relationship between nature the observing artist naturalist and the audience This book offers the first in depth investigation of Bartram's drawing practice as central to his understanding of nature Through an examination of Bartram's approach to botanical and zoological representation Athens highlights the struggle between different modes of seeing nature in eighteenth century Enlightenment science A Southern Underground Railroad Paul M. Pressly, 2024-08-01 Despite its apparent isolation as an older region of the country the Southeast provided a vital connecting link between the Black self

emancipation that occurred during the American Revolution and the growth of the Underground Railroad in the final years of the antebellum period From the beginning of the revolutionary war to the eve of the First Seminole War in 1817 hundreds and eventually several thousand Africans and African Americans in Georgia and to a lesser extent South Carolina crossed the borders and boundaries that separated the Lowcountry from the British and Spanish in coastal Florida and from the Seminole and Creek people in the vast interior of the Southeast Even in times of peace there remained a steady flow of individuals moving south and southwest reflecting the aspirations of a captive people A Southern Underground Railroad constitutes a powerful counter narrative in American history a tale of how enslaved men and women found freedom and human dignity not in Jefferson s Empire of Liberty but outside the expanding boundaries of the United States It is a potent reminder of the strength of Black resistance in the post revolutionary South and the ability of this community to influence the balance of power in a contested region Paul M Pressly s research shows that their movement across borders was an integral part of the sustained struggle for dominance in the Southeast not only among the Great Powers but also among the many different racial ethnic and religious groups that inhabited the region and contended for control Creek Internationalism in an Age of Revolution, 1763-1818 James L. George Galphin and the Transformation of the Georgia-South Carolina Backcountry Michael P. Morris, 2014-12-05 The focus of this work is a reconstruction of the life and career of an Ulster Scot fur trader George Galphin pronounced Golfin who immigrated to South Carolina in the colonial period The thesis of this work is that his life and career helped to shape the history of the backcountry of Georgia and South Carolina in three distinct ways First his support of a for profit Indian trade as opposed to a for stability trade shaped Anglo Indian relations between frontier settlers and their Indian neighbors Ultimately men like Galphin helped the United States move away from the British policy towards Native Americans in favor of a uniquely American policy which ran the gamut from exploitation to land seizures and finally toward Indian Removal itself The book involves a look at the histories of the Muskogee Creeks and Cherokees who were his clients and has a heavy Native American component Galphin s second major influence on the Southeast came with the creation of the Ulster Scot communities he sponsored in both South Carolina and Georgia The relocation plans catered strictly to the Scots Irish Protestants and located them in danger zones between coastal settlements of Anglo Saxon British settlers and the Indian frontiers of the two colonies Galphin s third major influence came during the American Revolution when he was appointed as a Patriot Indian Commissioner fighting to control the southeastern tribes and keep them out of the war In that role he made his contribution as did so many others that helped secure a Patriot victory This part of his story would be of note to an audience interested in the American Revolution in the South from the perspective of the backcountry Finally his family life included the creation of a large multi racial family which helped establish the Creole society of the Eastern Georgia Western South Carolina His spouses and children included Caucasians Native Americans and African Americans Two of Galphin s daughters were his slaves until his death
