Handbook of Emergency Neurology Thomas P. Campbell, Kevin M. Kelly, 2023-08-17

Patients with neurologic symptoms are frequently seen in the emergency department and require rapid and thorough evaluation. Appropriate assessment with tailored history taking, localization of the neurological problem, differential diagnosis, focused testing, and urgent treatment when indicated are essential to prevent patient morbidity. Neurological examination and testing of patients are covered in depth along with common neurological presentations using a symptom-based approach such as coma, dizziness, and gait disturbance. Specific neurological disorders are also explored, including traumatic brain injury, ischemic stroke, and transient ischemic attack, and neurotoxicology. Chapters follow a basic outline including an introduction and a pearls and pitfalls section, providing a succinct overview and key takeaway points for the busy clinician. This well-organized handbook will serve as a concise, valued reference for the clinician to use in assisting the evaluation of the most common neurology-related emergency department visits.
