Varieties Of Environmentalism Essays North And South:

Varieties of Environmentalism Ramachandra Guha, Joan Martínez Alier, 2013-10-11 Until very recently studies of the environmental movement have been heavily biased towards the North Atlantic worlds There was a common assumption amongst historians and sociologists that concerns over such issues as conservation or biodiversity were the exclusive preserve of the affluent westerner the ultimate luxury of the consumer society Citizens of the world s poorest countries ran the conventional wisdom had nothing to gain from environmental concerns they were too poor to be green and were attending to the more urgent business of survival Yet strong environmental movements have sprung up over recent decades in some of the poorest countries in Asia and Latin America albeit with origins and forms of expression quite distinct from their western counterparts In *Varieties of Environmentalism* Guha and Matinez Alier seek to articulate the values and orientation of the environmentalism of the poor and to explore the conflicting priorities of South and North that were so dramatically highlighted at the Rio Earth Summit in 1992 Essays on the ecology of affluence are also included placing in context such uniquely western phenomena as the cult of wilderness and the environmental justice movement Using a combination of archival and field data The book presents analyses of environmental conflicts and ideologies in four continents North and South America Asia and Europe The authors present the nature and history of environmental movements in quite a new light one which clarifies the issues and the processes behind them They also provide reappraisals for three seminal figures Gandhi Georgescu Roegen and Mumford whose legacy may yet contribute to a greater cross cultural understanding within the environmental movements *Varieties of Environmentalism* Ramachandra Guha, Joan Martínez Alier, 2000 An attempt to highlight the values and orientation of the environmentalism of the poor and explore conflicting priorities of the rich and poor nations *Varieties Of Environmentalism: Essays North And South* Ramachandra Guha, Joan Martinez-Alier, 1997 *Rethinking Environmentalism* Sharachchandra Lele, Eduardo S. Brondizio, John Byrne, Georgina M. Mace, Joan Martinez-Alier, 2019-03-29 A multidisciplinary examination of alternative framings of environmental problems with using examples from forest water energy and urban sectors Does being an environmentalist mean caring about wild nature Or is environmentalism synonymous with concern for future human well being or about a fair apportionment of access to the earth s resources and a fair sharing of pollution burdens Environmental problems are undoubtedly one of the most salient public issues of our time yet environmental scholarship and action is marked by a fragmentation of ideas and approaches because of the multiple ways in which these environmental problems are framed Diverse framings prioritize different values and explain problems in various ways thereby suggesting different solutions Are more inclusive framings possible Will this enable more socially relevant impactful research and more concerted action and practice This book takes a multidisciplinary look at these questions using examples from forest water energy and urban sectors It explores how different forms of environmentalism are shaped by different normative and theoretical positions and

attempts to bridge these divides Individual perspectives are complemented by comprehensive syntheses of the differing framings in each sector By self reflectively exploring how researchers study and mobilize evidence about environmental problems the book opens up the possibility of alternative framings to advance collaborative and integrated understanding of environmental problems and sustainability challenges

Social Movements in India Raka Ray, Mary Fainsod Katzenstein, 2005-03-25 Social movements have played a vital role in Indian politics since well before the inception of India as a new nation in 1947 During the Nehruvian era from Independence to Nehru's death in 1964 poverty alleviation was a foundational standard against which policy proposals and political claims were measured at this time movement activism was directly accountable to this state discourse However the role of social movements in India has shifted during the last several decades to accompany a changed political focus from state to market and from reigning ideologies of secularism to credos of religious nationalism In the first volume to focus on poverty and class in its analysis of social movements a group of leading India scholars shows how social movements have had to change because poverty reduction no longer serves its earlier role as a political template Nonetheless particular sectors of social movement politics remain the holding vessels for India's egalitarian conscience With distinctive chapters on gender lower castes environment the Hindu Right Kerala labor farmers and biotechnology *Social Movements in India* will be attractive to students and researchers in many different disciplines Contributions by Amita Baviskar Anuradha Chakravarty Vivek Chibber Gopal Guru Patrick Heller Ron Herring Mary John Mary Fainsod Katzenstein Neema Kudva Gail Omvedt Raka Ray and Tanika Sarkar
