Leopard Desmond Morris, 2014-06-15 The sleek spotted leopard may be the smallest of the big cats but its ferocity and solitary style makes lions and tigers seem puny in comparison Lacking the social mentality of other animals the leopard is stealthy and selfish ambushing its prey and carrying it high into a tree where it can dine alone Humans call leopards the perfect predator In Leopard renowned zoologist Desmond Morris seeks to show all sides of the cat

delving into the fascinating history of these incredible animals Morris examines the leopard's athletic elegance predatory skill wary shyness and cunning intelligence while also exploring the animal's parental devotion preference for solitude and capacity for revenge In addition to tracing the evolution of leopards he considers how humans have related to the animal throughout history Leopards he shows have long featured in the art mythology and folklore of ancient Greece Persia Rome and even England where they have not lived for several millennia But humans and leopards do not always coexist peacefully as Morris explains leopards have been known to attack humans when their food is scarce or they are injured He reveals how humans have exploited the cats attempting to train them for circus roles and how today some people are now making strides toward the leopard's conservation He also describes their rich symbolism appearances in literature and film and the use of the leopard print in both haute couture and down market fashion Packed with compelling images of this amazing animal in action Leopard sheds new light on these gorgeous cats
