Will I Be The Hero Of My Own Life:

Visual Workplace Visual Thinking Gwendolyn D. Galsworth, 2017-08-16 Visual Workplace Visual Thinking VWVT was written by the acknowledged leading expert in workplace visuality. While other books touch upon visual workplace tools and practices, no other author has addressed the topic with the clarity and depth presented here. This is a seminal book considered by many the definition of the field itself. First published by a small independent press in 2005, the book won the prestigious Shingo Research Prize in the same year. It was then and remains the only book of its kind that describes the conceptual and practical foundation for workplace visuality derived from dozens of hands-on implementations in some of the world's best or most challenging companies. Written not by an academic but by a hands-on practitioner who has worked for three decades with companies in various phases of visual transformation, the work carries the reader from the usual starting point of 5S through to the full power of the visual lean alliance. The book's 11 chapters are in four sections. The first defines the visual workplace in relation to operational excellence along with the eight building blocks of visual thinking. The next section, which targets the cultural conversion, is unexpectedly thrilling as it describes the genuine transformation of both company and employee, which is at the heart of every visual conversion. Section 3 maps the logic and sequence of Dr. Galsworth's 10 Doorway template as you learn about the visual side of 5S, visual standards, visual scheduling, visual material control, visual metrics, visual problem solving, visual leadership, as well as the visual machine and visual lean office. The final section of VTWW places visual management within the visual continuum, shows you how to use the ten doorways to assess your own company, and concludes with a discussion of the visual lean alliance illustrated through a conversion case study. With over 25 full-color albums of visual solutions, 50 graphs and charts, a detailed table of contents, and in-depth Index, this 277-page book positions the technologies of the visual workplace as a premier improvement strategy on every company's journey to operational excellence.

Will I be the Hero of My Own Life? Swami Chetanananda, 1995 **Will I Be the Hero of My Own Life?** Rudra Press, Swami Chetanananda, 2018. Becoming the hero of your own life is an endeavor filled with uncertainty and danger. As with the heroes of the epics, the journey forces you to face your deepest fears. This book explores the question at the heart of an authentic spiritual discipline. Drawing on the Bhagavad Gita and ancient cremation ground practices, Swami Chetanananda, a tantric master in the Sakta Saiva tradition, shows how the fire of transformation really works. His approach promises the possibility of profound freedom and a life lived in the spirit of creativity, integration, and happiness.
