A Laboratory Manual of Elemental Qualitative Chemical Analysis Andrew Richard Bliss, 1918

A Clinical manual of mental diseases 1917/18 Francis Xavier Dercum, 1918 Realizing the urgent needs of the medical student and of the practicing physician this book which is based upon the annual course of lectures delivered by the author at the Jefferson Medical College has been prepared from a purely practical point of view In the classification general arrangement and descriptions of mental diseases the author has endeavored to present the subject in a simple and yet thorough manner and at the same time to keep the volume within the limits of a convenient manual Emphasis has been laid upon the clinical pictures presented upon prognosis and upon treatment It is the general practitioner the family physician who sees the patient first and he should be sufficiently informed to be able to recognize mental diseases in their early stages He should know what to

do under given conditions when to commit and when not to commit a patient to an asylum and how the patient should be treated in his own home or elsewhere outside of an institution when this is practicable Preface PsycINFO Database Record c
