UK Communication Strategies for Afghanistan, 20012014 Thomas W. Cawkwell, 2016-03-09 The war in Afghanistan came to an end in 2014 after nearly thirteen years of conflict Throughout that period British officials have described UK operations there in various conflicting and often contradictory ways as a counter terrorism mission a stabilisation mission and a counter narcotics mission respectively This book investigates how the war was sold to the British public and how Britain s transnational foreign and defence policy impacted on the unfolding of UK strategy in Afghanistan and the way it was communicated It argues that because the UK s foreign and defence policy is transnationally oriented meaning that it is foundationally aimed at maintaining alliance with the United States and the institutional coherence of NATO UK strategy is contingent upon collective security and crucially is fundamentally concerned with the means of policy maintaining alliances over the ends using alliances to effect change Explaining the inalienability of collective security systems to national security is no easy task however and when faced with the adversities of Afghanistan the UK state has since 2008 instead opted to describe the significance of Afghanistan in narrow nation centric counter terrorist concerns in order to maintain public support for collective security operations there whilst paradoxically framing the conflict in a manner that avoids talking about the transnational structure and purpose of the mission This kind of strategic communication is increasingly becoming a focus of the UK state as it faces a transnational dilemma of maintaining its collective security bonds whilst facing a public increasingly sceptical of liberal interventionism
