Unconscious Putting Dave Stockton's Guide To Unlocking Your Signature Stroke:

Unconscious Putting Dave Stockton, Matthew Rudy, 2011-09-15 The Pro Tours Hottest Coach Golf Digest reveals the secrets that helped Phil Mickelson win the 2010 Masters and can utterly transform every player's game. When a resurgent Phil Mickelson won the Tour Championship in September 2009, he was quick to credit a series of simple putting lessons from veteran golf champion and instructor Dave Stockton. As a top coach, Stockton has taught a long list of pro players including Annika Sorenstam, Yani Tseng (winner of four LPGA tournaments), Adam Scott (Texas Open champion), Hunter Mahan (Phoenix Open champion) and Morgan Pressel (World Ladies Championship of Japan). The putting strategies that finessed their game, Stockton's breakthrough concept is that every player has their own Signature Stroke, which is unconscious. Good putting comes from the mind, Stockton says, not from a series of stiff mechanical positions. With visualization, the right frame of mind, an efficient pre-putt routine, and connection to the individual internal stroke signature, any player can make far more putts. Putting has always been taught as an offshoot to the full swing, when in reality it is far different, almost a different game. Unconscious Putting will help players get out of the rigid mechanical overthinking trap. In Unconscious Putting, Stockton shows how players at every handicap level, from pros to weekend golfers, can putt effortlessly and with confidence by integrating a new mental approach with a few simple physical routines that will keep them locked on target. Readers will also gain invaluable advice on reading greens and equipment. Illustrated throughout and filled with anecdotes about how Stockton's lessons have helped today's leading players, Unconscious Putting is a must-have golf book and a category classic in the making.

Mastering Golf's Mental Game Michael Lardon, Matthew Rudy, 2014-09-16 Perfect your mental approach to your game. To be a golfer is to tinker with everything from equipment to grip to swing. But one thing most players don't give enough attention to is the mental game. Psychologists aren't a new phenomenon in golf, but Dr. Michael Lardon is a different breed of performance coach. Instead of sending his players into a losing battle against emotion, indecision, and fear on the golf course, he shows them how to organize their thoughts and use them for maximum performance. His step-by-step Pre-Shot Pyramid provides any player with the ideal blueprint for shot setup. And his revolutionary Mental Scorecard will give you the tools to accurately measure what you really do on the golf course and how to make real, permanent improvements. You will learn the same techniques that Dr. Lardon shares with Phil Mickelson and dozens of other tour players, including the tools that helped Mickelson right himself after the 2012 U.S. Open to win the British Open a month later with a historic final round. Mastering Golf's Mental Game will change the way you think about golf and is a must-read for any player serious about shooting better scores and getting more enjoyment out of the game.

Thought in Action Barbara Gail Montero, 2016 How does thinking affect doing? It is widely held that thinking about what you are doing as you are doing it hinders performance. But is this true? Barbara Gail Montero explores real-life examples and draws on psychology, neuroscience, and literature to develop a theory of expertise that emphasizes the role of the conscious mind in expert action.
