Teachers of grades K-12 will find short probes with grade-band specifics that provide easy-to-follow suggestions for addressing students' ideas by promoting learning through conceptual change instruction. Volume 4 adds to the probes in physical life and Earth and space science with a new category called unifying principles. Relating the mysteries to experiences familiar to elementary and middle school students, the stories show how science is part of everyday life and initiate inquiry-based learning by leaving each mystery without an ending. Students identify the problem to be solved, formulate questions, form hypotheses, test their ideas, and come up with possible explanations. *Everyday Earth and Space Science Mysteries* Richard Konicek-Moran, 2013 What are the odds that a meteor will hit your house? Do you actually get more sunlight from Daylight Savings Time? Where do puddles go? By presenting everyday mysteries like these, this book will motivate your students to carry out hands-on science investigations and actually care about the results. These 19 open-ended mysteries focus exclusively on Earth and space science, including astronomy, energy, climate, and geology. The stories come with lists of science concepts to explore, grade-appropriate strategies for using them, and explanations of how the lessons align with national standards. They also relieve you of the tiring work of designing inquiry lessons from scratch, cover verso. *Uncovering Student Ideas in Science* Page Keeley, 2005 V. 1 Physical science assessment probes: Life, Earth, and space science assessment probes. *Uncovering Student Ideas in Science, Volume 3*, 2008 *The Science Teacher*, 2009 *Illinois Chemistry Teacher*, 2007 **Uncovering Student Ideas in Science: 25 new formative assessment probes** Page Keeley, 2005 A collection of twenty-five new assessment probes designed to determine students' thinking. **Uncovering Student Ideas in Science** Page Keeley, **The Impact of Formative Assessment Techniques on the Instruction of the High School Biology Units of Photosynthesis and Cellular Respiration** Shanna Fawn Tury, 2010 *School Library Journal*, 2007-09
