Versailles Colin Jones, 2018-11-20 The vivid story of the creation renovation and enduring legacy of the most famous building in France the palace of Versailles Nothing represents the glorious and fraught history of France quite like the Palace of Versailles Made famous by the absolutist king Louis XIV Versailles became legendary for the splendor of its revels but then after the Revolution of 1789 it fell into disrepute as a reminder of royal excess and abuse of power Subsequent French governments struggled with how to handle the opulent palace and grounds should the site be memorialized trivialized rehabilitated or even destroyed outright Drawing on a new wave of recent research historian Colin Jones masterfully traces the evolution of Versailles as a space of royal politics and aristocratic pleasures a building of mythic status and one of the world's great tourist destinations Accessible and compelling this book is a must read for all Francophiles

The Key to Power? Dries

Raeymaekers, Sebastiaan Derks, 2016-07-11 Proximity to the monarch was a vital asset in the struggle for power and influence in medieval and early modern courts The concept of access to the ruler has therefore grown into a dominant theme in scholarship on pre modern dynasties Still many questions remain concerning the mechanisms of access and their impact on politics Bringing together new research on European and Asian cases the ten chapters in this volume focus on the ways in which access was articulated regulated negotiated and performed By taking into account the full complexity of hierarchies ceremonial rites spaces and artefacts that characterized the dynastic court *The Key to Power* forces us to rethink power relations in the late medieval and early modern world Contributors are Christina Antenhofer Ronald G Asch Florence Berland Mark Hengerer Neil Murphy Fabian Persson Jonathan Spangler Michael Talbot Steven Thiry and Audrey Truschke

King of the World Philip Mansel, 2020-09-01 Louis XIV was a man in pursuit of glory Not content to be the ruler of a world power he wanted the power to rule the world And for a time he came tantalizingly close Philip Mansel's *King of the World* is the most comprehensive and up to date biography in English of this hypnotic flawed figure who continues to captivate our attention This lively work takes Louis outside Versailles and shows the true extent of his global ambitions with stops in London Madrid Constantinople Bangkok and beyond We witness the importance of his alliance with the Spanish crown and his success in securing Spain for his descendants his enmity with England and his relations with the rest of Europe as well as Asia Africa and the Americas We also see the king's effect on the two great global diasporas of Huguenots and Jacobites and their influence on him as he failed in his brutal attempts to stop Protestants from leaving France Along the way we are enveloped in the splendor of Louis's court and the fascinating cast of characters who prostrated and plotted within it *King of the World* is exceptionally researched drawing on international archives and incorporating sources who knew the king intimately including the newly released correspondence of Louis's second wife Madame de Maintenon Mansel's narrative flair is a perfect match for this grand figure and he brings the Sun King's world to vivid life This is a global biography of a global king whose power was extensive but also limited by laws and circumstances and whose interests and ambitions stretched far beyond his homeland Through it all we watch Louis XIV progressively turn from a dazzling attractive young king to a belligerent reactionary who sets France on the path to 1789 It is a convincing and compelling portrait of a man who three hundred years after his death still epitomizes the idea of *le grand monarque*

The Consumer Revolution, 1650-1800 Michael Kwass, 2022-02-03 A bold new interpretation of consumer revolution in 18th century Europe examining globalization and the politics of consumption in the age of Revolution *Marie-Antoinette's Legacy* Susan Taylor-Leduc, 2025-10-01 Challenging the established historiography that frames the French picturesque garden movement as an international style this book contends that the French picturesque gardens from 1775 until 1867 functioned as liminal zones at the epicenter of court patronage systems Four French consorts queen Marie Antoinette and empresses Josphine Bonaparte Marie Louise and Eugénie constructed their gardens betwixt and between court ritual and personal agency where

they transgressed sociopolitical boundaries in order to perform gender and identity politics Each patron endorsed embodied strolling promoting an awareness of the sentient body in artfully contrived sensoria at the Petit Trianon and Malmaison transforming these places into spaces of shared affectivity The gardens became living legacies where female agency excluded from the garden history canon created a forum for spatial politics Beyond the garden gates the spatial experience of the picturesque influenced the development of cultural fields dedicated to performances of subjectivity including landscape design cultural geography and the origination of landscape aesthetics in France **The Jerusalem Files** Corjan

The Bedroom Michelle Perrot, 2018-08-21 An erudite and highly enjoyable exploration of the most intriguing of personal spaces from Greek and Roman antiquity through today The winner of France s prestigious Prix Femina Essai 2009 this imaginative and captivating book explores the many dimensions of the room in which we spend so much of our lives the bedroom Eminent cultural historian Michelle Perrot traces the evolution of the bedroom from the time of the ancient Greeks and Romans to today examining its myriad forms and functions from royal king s chamber to child s sleeping quarters to lovers trysting place to monk s cell The history of women so eager for a room of their own and that of prisons where the principal cause of suffering is the lack of privacy is interwoven with a reflection on secrecy walls the night and its mysteries Drawing from a wide range of sources including architectural and design treatises private journals novels memoirs and correspondences Perrot s engaging book follows the many roads that lead to the bedroom birth sex illness death in its endeavor to expose the most intimate nocturnal side of human history Antiquarianism and the Visual

Histories of Louis XIV Robert Wellington, 2017-07-05 Antiquarianism and the Visual Histories of Louis XIV Artifacts for a Future Past provides a new interpretation of objects and images commissioned by Louis XIV 1638 1715 to document his reign for posterity The Sun King s image makers based their prediction of how future historians would interpret the material

remains of their culture on contemporary antiquarian methods creating new works of art as artifacts for a future time The need for such items to function as historical evidence led to many pictorial developments and medals played a central role in this Coin like in form but not currency the medal was the consummate antiquarian object made in imitation of ancient coins used to study the past Yet medals are often elided from the narrative of the arts of ancient France their neglect wholly disproportionate to the cultural status that they once held This revisionary study uncovers a numismatic sensibility throughout the iconography of Louis XIV and in the defining monuments of his age It looks beyond the standard political reading of the works of art made to document Louis XIV's history to argue that they are the results of a creative process wedded to antiquarianism an intellectual culture that provided a model for the production of history in the grand siècle

Fate, Glory, and Love in Early Modern Gallery Decoration Margaretha Rossholm Lagerlöf, 2017-07-05 Analysing the decorative programmes of the most opulent European palaces of the time Margaretha Rossholm Lagerlöf investigates how meaning was conveyed through display and visual effects She explores the visual meaning inherent in the scheme of spatial relations in effects of scale perspective lighting figures positions and postures and in relations among image types The analysis concerns the interrelations of various kinds of images in the ensembles the relations between images and physical site and the address to the beholder Lagerlöf considers the visual impact of the imagery in conjunction with readable or symbolically coded meanings thus the study does not merely subject these decorations to formalist aesthetic principles She shows the visual meaning generally to sustain the verbal or readable messages but often in subtle ways extending or elaborating the meaning Occasionally the visual meaning comes forth as an undercurrent or complication deviating from the proclaimed and symbolic meaning Fate Glory and Love in Early Modern Gallery Decoration contributes to the body of scholarship on visual rhetoric and on how images act out their messages

The Emperor's House Michael Featherstone, Jean-Michel Spieser, Gülru Tanman, Ulrike Wulf-Rheidt, 2015-08-31 Evolving from a patrician domus the emperor's residence on the Palatine became the centre of the state administration Elaborate ceremonial regulated access to the imperial family creating a system of privilege which strengthened the centralised power Constantine followed the same model in his new capital under a Christian veneer The divine attributes of the imperial office were refashioned with the emperor as God's representative The palace was an imitation of heaven Following the loss of the empire in the West and the Near East the Palace in Constantinople was

preserved subject to the transition from Late Antique to Mediaeval conditions until the Fourth Crusade attracting the attention of Visigothic Lombard Merovingian Carolingian Norman and Muslim rulers Renaissance princes later drew inspiration for their residences directly from ancient ruins and Roman literature but there was also contact with the Late Byzantine court Finally in the age of Absolutism the palace became again an instrument of power in vast centralised states with renewed interest in Roman and Byzantine ceremonial Spanning the broadest chronological and geographical limits of the Roman imperial tradition from the Principate to the Ottoman empire the papers in the volume treat various aspects of palace architecture art and ceremonial

The Dream of Absolutism Hall Bjørnstad, 2021-10-15 The Dream of Absolutism examines the political aesthetics of power under Louis XIV What was absolutism and how did it work What was the function of the ostentatious display surrounding Louis XIV at Versailles What is gained and what is lost by approaching such expressions of absolutism as propaganda as present day scholars tend to do In this sweeping reconsideration of absolutist culture Hall Bjørnstad argues that the exuberance of Louis XIV's reign was not top down propaganda in any modern sense but rather a dream dreamt collectively by king court image makers and nation alike Bjørnstad explores this dream through a sustained close analysis of a corpus of absolutist artifacts ranging from Charles Le Brun's famous paintings in the Hall of Mirrors at Versailles via the king's secret Mmoires to two little known particularly extravagant verbal and textual celebrations of the king The dream of absolutism Bjørnstad concludes lives at the intersection of politics and aesthetics It is the carrier of a force that emerges as a glorious image a participatory emotional reality that requires reality to conform to it It is a dream finally that still shapes our collective political imaginary today

Exuberant Apotheoses: Italian Frescoes in the Holy Roman Empire Daniel

Fulco,2016-04-01 From the late seventeenth through the mid eighteenth centuries large scale Italian frescoes soared in popularity as nobles in the German principalities of the Holy Roman Empire constructed new palaces at an unprecedented rate They competed with one another to produce lavish decorative schemes that expressed their claim to princely power and political authority Whereas previous art historians have primarily focused on iconographic and stylistic issues and generally treated these programs as individual commissions of regional courts this book places the works of art within their broad cultural and historical contexts during the Enlightenment This monograph explains how rulers gradually shifted from emphasizing military heroism to stressing their cultivation of the arts and sciences and addresses how expressing membership in a specifically European civilization emerged as an integral visual theme and a key ambition of the German nobility *Officers, Entrepreneurs, Career Migrants, and Diplomats* ,2024-08-19 Money money and more money In the eyes of early modern warlords these were the three essential prerequisites for waging war The transnational studies presented here describe and explain how belligerent powers did indeed rely on thriving markets where military entrepreneurs provided mercenaries weapons money credit food expertise and other services In a fresh and comprehensive examination of pre national military entrepreneurship its actors structures and economic logic this volume shows how readily business relationships for supplying armies in the 17th and 18th centuries crossed territorial and confessional boundaries By outlining and explicating early modern military entrepreneurial fields of action this new transnational perspective transcends the limits of national historical approaches to the business of war Contributors are Astrid Ackermann John Condren Jasmina Cornut Michael Depreter S bastien Dupuis Marian F ssel Julien Grand Andr Holenstein Katrin Keller Michael Paul Martoccio Tim Neu David Parrott Alexander Quereng sser Philippe Rogger Guy Rowlands Benjamin Ryser Regula Schmid and Peter H Wilson Political Space in Pre-industrial Europe Beat Kümin,2016-04-22 Social and cultural studies are experiencing a spatial turn Micro sites localities empires as well as virtual or imaginary spaces attract increasing attention In most of these works space emerges as a social construct rather than a mere container This collection examines the potential and limitations of spatial approaches for the political history of pre industrial Europe Adopting a broad definition of political the volume concentrates on two key questions Where did political exchange take place How did spatial dimensions affect political life in different periods and contexts Taken together the essays demonstrate that pre modern Europeans made use of a much wider range of political sites than is usually assumed not just palaces town halls and courtrooms but common fields as well as back rooms of provincial inns and that spatial dimensions provided key variables in political life both in terms of territorial ambitions and practical governance and in the more abstract forms of patronage networks representations of power and the emerging public sphere As such this book offers a timely and critical engagement with the spatial turn from a political perspective Focusing on the distinct constitutional environments of England and the Holy Roman Empire one associated with early centralization and strong parliamentary powers the other with political fragmentation and absolutist

tendencies it bridges the common gaps between late medieval and early modern studies and those between historians and scholars from other disciplines Preface commentary and a sketch of research perspectives discuss the wider implications of the essays findings and reflect upon the value of spatial approaches for political history as a whole

The Pineapple from Domestication to Commodification Victoria Avery, Melissa Calaresu, 2025-10-15 The pineapple's discovery by European colonisers in the late fifteenth century and its remarkable global trajectory from an early modern object of rarity desire and horticultural innovation to a cheap canned consumable and fair trade logo today is a story of modern globalisation The Pineapple from Domestication to Commodification is a wide ranging interdisciplinary volume intended to provoke timely debate and generate radical rethinking of an overly familiar fruit with associations from luxury to kitsch It deliberately problematizes the pineapple by investigating understudied tensions between its representational power and the historical and political contexts of its worldwide production and consumption This connects the global and local at the heart of contemporary debates about the nature and origins of our food It will have cross disciplinary appeal for scholars of politics economics history plant sciences food and material culture as well as for broader audiences interested in food gardening the environment and visual arts
