Convergence Culture Reconsidered Claudia Georgi,Brigitte Johanna Glaser,2015 Taking media scholar Henry Jenkins s concept of convergence culture and the related notions of participatory culture and transmedia storytelling as points of departure the essays compiled in the present volume provide terminological clarification offer exemplary case studies and discuss the broader implications of such developments for the humanities Most of the contributions were originally presented at the transatlantic conference *Convergence Culture Reconsidered* organized by the editors at the Georg August Universit t

Göttingen Germany in October 2013 Applying perspectives as diverse as literary cultural and media studies digital humanities translation studies art history musicology and ecology they assemble a stimulating wealth of interdisciplinary and innovative approaches that will appeal to students as well as experts in any of these research areas

Narrative and Its Nonevents Carra Glatt, 2022-12-14 This book is about what does not happen in the Victorian novel The description may sound absurd yet consideration of alternatives to a given state of affairs is crucial to our understanding of a novel Plot emerges out of the gradual elimination of possibilities from the revelation on the first page of a work that we are in nineteenth century London and not sixteenth century Paris to the final disclosure that Pip returns home too late to marry Biddy but is now free to pursue his lost love Estella Through careful examination of the plots of such classics as Charles Dickens's Great Expectations Charlotte Brontë's Villette Wilkie Collins's The Moonstone Jane Austen's Pride and Prejudice Henry James's The Ambassadors Elizabeth Gaskell's Mary Barton and others Glatt argues for the central role of these unwritten plots in Victorian narrative construction Abandoning the allegorical mode in which characters are bound by fixed identities to reach a predetermined conclusion and turning away from classical and historical plots with outcomes already known to audiences the realist novel of the Victorian era was designed to simulate the openness and uncertainty of ordinary human experience We are invested in these stories of David Copperfield or Elizabeth Bennet or Lucy Snowe in part because we cannot be entirely sure how those stories will end As Glatt demonstrates the Victorian novel is characterized by a proliferation of possibilities

Victorian Literature and Culture John Maynard, 1996-12

Victorian Metafiction Tabitha Sparks, 2022-11-17 Critics agree in the abstract that metafiction refers to any novel that draws attention to its own fictional construction but metafiction has been largely associated with the postmodern era In this innovative new book Tabitha Sparks identifies a sustained pattern of metafiction in the Victorian novel that illuminates the art and intentions of its female practitioners From the mid nineteenth century through the fin de siècle novels by Victorian women such as Charlotte Brontë Rhoda Broughton Charlotte Riddell Eliza Lynn Linton and several New Women authors share a common but underexamined trope the fictional characterization of the woman novelist or autobiographer Victorian Metafiction reveals how these novels systemically dispute the assumptions that women wrote primarily about their emotions or were restricted to trivial sentimental plots Countering an established tradition that has read novels by women writers as heavily autobiographical and confessional Sparks identifies the literary technique of metafiction in numerous novels by women writers and argues that women used metafictional self consciousness to draw the reader's attention to the book and not the novelist By dislodging the narrative from these cultural prescriptions Victorian Metafiction effectively argues how these women novelists presented the business and art of writing as the subject of the novel and wrote metafiction in order to establish their artistic integrity and professional authority

Victorian Literature and Culture Journal,

Haunting Ecologies Ursula Kluwick, 2024-06-18 Victorians views of water and its role in how the social fabric of Victorian Britain was imagined Water matters like few other substances in people's daily lives In the

nineteenth century it left its traces on politics urban reform and societal divisions as well as on conceptualizations of gender roles Drawing on the methodology of material ecocriticism Ursula Kluwick s *Haunting Ecologies* argues that Victorian Britons were keenly aware of aquatic agency recognizing water as an active force with the ability to infiltrate bodies and spaces Kluwick reads works by canonical writers such as Braddon Dickens Stoker and George Eliot alongside sanitary reform discourse court cases journalistic articles satirical cartoons technical drawings paintings and maps This wide ranging study sheds new light on Victorian era anxieties about water contamination as well as on how certain wet landscapes such as sewers rivers and marshes became associated with moral corruption and crime Applying ideas from the field of blue humanities to nineteenth century texts *Haunting Ecologies* argues for the relevance of realism as an Anthropocene form

The Art of Adapting Victorian Literature, 1848-1920 Dr Karen Laird, 2015-08-28 In *The Art of Adapting Victorian Literature 1848 1920* Karen E Laird alternates between readings of nineteenth century stage and twentieth century silent film adaptations to demonstrate the working practices of the first adapters of Victorian fiction Focusing on Charlotte Brontë s *Jane Eyre* Charles Dickens s *David Copperfield* and Wilkie Collins s *The Woman in White* Laird charts a new cultural history of literary adaptation as it developed throughout the long nineteenth century *Victorian Nightshades* Elizabeth A. Campbell, 2025-03-27 A darkly alluring plant family and the arrival of modernity *Victorian Nightshades* tells the story of how one plant family notorious for centuries in England because of its frequently psychoactive and poisonous properties rose to social and economic prevalence during the nineteenth century Beginning with bittersweet and belladonna the Old World species associated with evil witchcraft and dangerous women in an era when traditional botanical beliefs not only assigned morality to plants but also gendered them Campbell then moves to the ubiquitous potato and tobacco before concluding with four of the Solanaceae that achieved the widest national favor by the end of the century the ornamental petunia and the edible pepper eggplant and tomato The story of the nightshades exposes the conflicts between science and popular sentiment and between knowledge and received opinion that defined the nineteenth century Campbell compellingly details how advances in medical and botanical knowledge evolutionary theory and the vagaries of human desire transformed the Solanaceae from a plant family plagued by fear and hostility in the British imagination to one of cultural favor and celebration by the turn of the century encapsulating the Victorian era s course to modernity
