The Oxford Handbook of the Archaeology of Childhood Sally Crawford,Dawn Hadley,Gillian Shepherd,2018-05-10

Real understanding of past societies is not possible without including children and yet they have been strangely invisible in the archaeological record Compelling explanation about past societies cannot be achieved without including and investigating children and childhood However marginal the traces of children's bodies and bricolage may seem compared to adults archaeological evidence of children and childhood can be found in the most astonishing places and spaces The archaeology of childhood is one of the most exciting and challenging areas for new discovery about past societies Children are part of every human society but childhood is a cultural construct Each society develops its own idea about what a childhood should be what children can or should do and how they are trained to take their place in the world Children also play a part in creating the archaeological record itself In this volume experts from around the world ask questions about childhood thresholds of age and growth childhood in the material culture the death of children and the intersection of the childhood and the social economic religious and political worlds of societies in the past

British Hymn Books for Children, 1800-1900 Alisa Clapp-Itnyre,2016-09-17 Examining nineteenth century British hymns for children Alisa Clapp Itnyre argues that the unique qualities of children's hymnody created a space for children's empowerment Unlike other literature of the era hymn books were often compilations of many writers hymns presenting the discerning child with a multitude of perspectives on religion and childhood In addition the agency afforded children as singers meant that they were actively engaged with the text music and pictures of their hymnals Clapp Itnyre charts the history of children's hymn book publications from early to late nineteenth century considering major denominational movements the importance of musical tonality as it affected the popularity of hymns to both adults and children and children's reformation of adult society provided by such genres as missionary and temperance hymns While hymn books appear to distinguish the child from the adult intricate issues of theology and poetry typically kept within the domain of adulthood were purposely conveyed to those of younger years and comprehension Ultimately Clapp Itnyre shows how children's hymns complicate our understanding of the child adult binary traditionally seen to be a hallmark of Victorian society Intersecting

Proust and the Victorians Robert Fraser, 1994-05-13 In 1899 Marcel Proust read a translation of Ruskin's *The Lamp of Memory* in a Belgian magazine Fourteen years later he back-projected the experience onto the narrator of *Du cote de chez Swann* who describes himself as a boy reading the self-same piece in the garden at Combray In between lay a period of intermittent enthusiasm for Victorian writing a period which saw the refurbishment of Proust's method and a fundamental rethinking of his views Much of this reassessment was achieved in relation to English writers whom Proust adopted absorbed and then as often as not discarded The end result was to enable him to pass from one aesthetic to another It is the contention of this book that the clue to this process can be found not only in Proust's evolving views on memory and time but also in his progression through a three-fold typology of form from mimetic form art imitating the real through mnemonic form art imitating memory to abstract form art imitating itself The progress from one to another is illustrated through Proust's reactions to Carlyle Darwin Emerson Ruskin George Eliot Hardy Stevenson Wells and Wilde There is also a chapter on the connection in Proust's mind between literary and art criticism and his delayed response to the Ruskin Whistler trial of 1878 A final chapter relates these matters to the current debate as to the parallel between the nineteenth century *fin de siècle* and our own
