Leiden University in the seventeenth century G. H. M. Posthumus Meyjes, H. Lunsingh Scheurleer, 2024-07-29 **Sex and Drugs Before Rock 'n' Roll** Benjamin Roberts, 2012 Sex and Drugs Before the Rock n Roll is a fascinating volume that presents an engaging overview of what it was like to be young and male in the Dutch Golden Age Here well known cohorts of Rembrandt are examined for the ways in which they expressed themselves by defying conservative values and norms This study reveals how these young men rebelled breaking from previous generations letting their hair grow long wearing colorful clothing drinking excessively challenging city guards being promiscuous smoking and singing lewd songs Cogently argued this study paints a compelling portrait of the youth culture of the Dutch Golden Age at a time when the rising popularity of print made dissemination of new cultural ideas possible while rising incomes and liberal attitudes created a generation of men behaving badly **A History of the University in Europe: Volume 3, Universities in the Nineteenth and Early Twentieth Centuries (1800-1945)** Walter Rüegg, 2006-11-06 The story of the modern research university in Europe and its expansion to other continents first published in 2004 **Vier eeuwen nederlandsch studentenleven** A. C. J. de Vrankrijker, 1939 **Collected Wisdom of the Early Modern Scholar** Anna Marie Roos, Gideon Manning, 2023-01-01 This book brings together leading scholars in the history of science history of universities intellectual history and the history of the Royal Society to honor Professor Mordechai Feingold The essays collected here reflect the impact Feingold's scholarship has had on a range of fields and address several topics including the dynamic pedagogical techniques employed in early modern universities networks of communication through which scientific knowledge was shared experimental techniques and knowledge production the life and times of Isaac Newton Newton's reception and the scientific culture of the Royal Society Modeling the interdisciplinary approaches championed by Feingold as well as the essential role of archival studies the volume attests to the enduring value of his scholarship and sets a benchmark for future work in the history of science and its allied fields *Myrica* Jozef IJsewijn, 2000 *Becoming Delinquent: British and European Youth, 1650-1950* Pamela Cox, Heather Shore, 2017-11-30 This title was first published in 2002 Becoming Delinquent British and European Youth 1650 1950 provides a critical synthesis of the growing body of work on the history of British and European juvenile delinquency It is unique in that it analyzes definitions of and responses to disorderly youth across time from the mid seventeenth to the mid twentieth centuries and across space covering developments across Western Europe This comparative approach allows it to show how certain themes dominated European discourses of delinquency across this period not least panics about urban culture poor parenting dangerous pleasures family breakdown national fitness and future social stability It also shows how

these various threats were countered by recurring strategies most notably by repeated attempts to deter delinquency to divide responsibility between the state civil society and the family and to find a proper balance between moral reform and physical punishment between care and control

[The Eclipse of Liberal Protestantism in the Netherlands](#) Tom-Eric Krijger, 2019-09-16 In *The Eclipse of Liberal Protestantism in the Netherlands* Tom Eric Krijger is the first to offer a synthesis of the development of the Protestant modernist movement in Dutch religious social cultural and political life between 1870 and 1940 In historiography the liberal Protestant community is said to have lost appeal and influence in these decades due to a lack of theological clarity inner harmony and organisation Analysing liberal Protestants self perception vis vis Christian orthodoxy self understanding as a faith community attitude towards other alternatives to orthodoxy class consciousness literary criticism political commitment and involvement with foreign mission Krijger

challenges this view Making an international comparison he argues that the Dutch modernist movement failed to make headway primarily due to liberal Protestant expectations and discourse
