1400-1600 Elisabeth Salter,2017-10-03 This book is about reading practice and experience in late medieval and early modern England It focuses on the kinds of literatures that were more readily available to the widest spectrum of the population Four case studies from many possibilities have been selected each examining a particular type of popular literature under the headings religious moral practical and fictional A key concern of the book is how we might use particular types of evidence in order to understand more about reading practice and experience so issues of method and approach are discussed fully in the opening chapter One distinctive element of this book is that it attempts to uncover evidence for the reading practices and experiences of real rather than ideal readers using evidence that is found within the material of a book or manuscript itself or within the structure of a specific genre of literature Salter attempts to negotiate a path through a set of methodological and interpretive issues in order to arrive at a better understanding of how people may have read and what they may have read This in turn leads on to how we may interpret the evidence that manuscripts and early printed books provide for the ways that medieval and early modern people engaged with reading This book will be of interest to academics and research students who study the history of reading popular culture literacy manuscript and print culture as well as to those interested more generally in medieval and early modern society and culture Princeton Alumni Weekly ,1948

in Cameroon Nathanael Ojong, 2019-11-22 This book provides a detailed account of the lives of the poor particularly their use of social networks to meet everyday needs Based on fieldwork in Cameroon the book provides a distinctive approach that draws on social network theory and insights from economic anthropology to shed light on how the poor make a living Though embeddedness in social networks is essential to human achievement we know little about the social and cultural forces and processes that shape poor people's decisions to seek help from strong weak and disposable ties in an African context Focusing on network practice rather than network structure the author argues that the ability of poor people to meet their diverse needs rests on several elements such as favourable interactions and social and cultural forces He examines various issues crucial to the lives of the poor such as food shelter healthcare death and funerals and access to finance Particular focus is given to the complicated nature of social relationships the different contexts where these relationships take place and how these factors shape poor individuals' decisions regarding whom to turn to when attempting to meet their needs including how they actually meet those needs This book will be of interest to researchers teachers students and policy makers in African Studies economics development studies sociology and anthropology

A Ninth Century Treatise on the Law of Trusts Gilbert Paul Verbit, 2008-05-19 Frederic W Maitland the pre eminent Anglo American legal historian said that the trust perhaps forms the most distinctive achievement of English lawyers It seems to us essential to civilization and yet there nothing quite like it in foreign law Maitland was wrong There was and is an almost identical institution in Islamic law the waqf This book establishes the proof of that assertion But it establishes much more than that For it proves that the waqf pre existed the English trust by at least five hundred years And more generally this work may be the oldest existing legal text devoted to a single subject And the book is substantial evidence of the level of development and sophistication of classical Islamic law at a time when other major legal systems were still in their infancy

Patients, Power and the Poor in Eighteenth-Century Bristol Mary Elizabeth Fissell, Mary E. Fissell, 2002-07-04 In early modern England housewives clergymen bloodletters herb women and patients told authoritative tales about the body By the end of the eighteenth century however medicine had begun to drown out these voices This book argues that changes in the relationship between rich and poor underlay this rise in medicine's authority

Contextual Theology and Revolutionary Transformation in Latin America Angel D. Santiago-Vendrell, 2010-06-01 U S audiences know Latin American liberation theologies largely through translations of Latin American Catholics from the 1970s and beyond Most of the few known Protestant authors were students of Richard Shaull whose critical thinking on social change prophetic Christianity and dialogue with Marxism and Christian use of Marxist analysis precedes the emergence of the formal schools of liberation theology by two decades His own education at Princeton and the education he provided in Brazil charts the course of Protestant influences into this stream of theological reflection that became a global phenomenon in the latter decades of the twentieth century Also Shaull's career roughly parallels the emergence of the World Council of Churches and the engagement of the Catholic Church in Latin America and

around the world after the Second Vatican Council He himself was engaged and became the flash point in some of the major conferences movements and institutions of the 1960s and beyond Santiago Vendrell documents the entrance of the ecumenical movement in Brazil among the most dramatic transformations in Catholic Protestant relations around the globe as well as Shaull s role in that development Along the way he notes Shaull s prophetic and destabilizing role in the worldwide student movement in the 60s and 70s charting decisions that mark the ecumenical movement Shaull s contributions are important for an understanding of the ethical debates in the worldwide ecumenical Protestant and Orthodox communities Santiago Vendrell examines primary secondary and historical documents that shine a light on Shaull s transformation into a contextual theologian of the poor He offers a definitive view of this North American Protestant missionary who wrote extensively on Latin American liberation theology the base Christian communities and how conversion to solidarity with the poor offers transforming possibilities for the mainline churches theological identity and practical faith

Dickens and Democracy in the Age of Paper Carolyn Vellenga Berman,2022-02-10 This book examines Charles Dickens s fiction alongside publications emanating from Parliament It argues that Dickens and Parliament were engaged in competitive efforts to represent the People at a crucial moment in the history of representative democracy when the British government was under enormous political pressure to expand the franchise beyond a narrow band of male landowners Contending that fiction and the literature of Parliament interacted at a host of levels jostling one another in the same bookshops it reads Dickens s novels in tandem with blue books the practice texts of shorthand manuals and Dickens s journalism It shows how his fiction mocks parliamentary form as in *Pickwick Papers* canvasses the history of parliamentary representation as in *Bleak House* and depicts the relation of the People to the state as well as commerce as in *Little Dorrit* It thus rethinks the history of the Victorian novel by examining its rivalry with Parliament in the expanding world of print publication
