Playing God with Emerging Technologies Moti Mizrahi,2025-10-16 Public debates over the morality of new or emerging technologies tend to devolve into false dichotomies of optimism versus pessimism Playing God with Emerging Technologies How to Avoid the Traps of Techno Optimism and Techno Pessimism provides a conceptual apparatus for engaging in such debates in a critical manner through the constructive lens of playing God arguments Moti Mizrahi sketches a conceptual framework consisting of an argumentation scheme for playing God arguments along with Critical Questions This framework can be used to analyze and evaluate playing God arguments as they are made in debates over the ethical development and deployment of new or emerging technologies such as solar geoengineering Artificial Intelligence AI autonomous vehicles autonomous weapons and more Mizrahi argues that playing God arguments allow us to assume an intermediate critical attitude between the extremes of hype and panic as well as approach the governance of new or emerging technologies in ways that might help to increase our control over improve our understanding of and prevent our misuse or abuse of such technologies

Causes and Consequences of Word Structure Jennifer Hay,2004-08-02 This book explores effects of speech perception strategies upon morphological structure Using connectionist modeling perception and production experiments and calculations over lexica Jennifer Hay investigates the role of two factors known to be relevant to speech perception phonotactics and lexical frequency Hay demonstrates that low probability phoneme transitions across morpheme boundaries exert a considerable force toward the maintenance of complex words and argues that the relative frequency of the derived form and the base significantly affects the decomposability of complex words While many have claimed that high frequency forms do not tend to be decomposed Hay asserts that this follows only when such forms are more frequent than the bases they contain The results of Hay s experiments illustrate the tight connection between speech processing lexical representations and aspects of linguistic competence The likelihood that a form will be parsed during speech perception has profound consequences from its grammaticality as a base of affixation through to fine details of its implementation in the phonetics

Understanding and Developing Science Teachers' Pedagogical Content

Knowledge J. John Loughran, Amanda Berry, Pamala Mulhall,2006-01-01 There has been a growing interest in the notion of a scholarship of teaching Such scholarship is displayed through a teacher s grasp of and response to the relationships between knowledge of content teaching and learning in ways that attest to practice as being complex and interwoven Yet attempting to capture teachers professional knowledge is difficult because the critical links between practice and knowledge for many teachers is tacit Pedagogical Content Knowledge PCK offers one way of capturing articulating and portraying an aspect of the scholarship of teaching and in this case the scholarship of science teaching The research underpinning the approach developed by Loughran Berry and Mulhall offers access to the development of the professional knowledge of science
