Understanding Addiction Understanding Health And Sickness Series:

Understanding Mental Health and Mental Illness Paul H. Jenkins, 2021-01-26 The question of whether someone is psychologically healthy or mentally ill and the fundamental nature of mental health underlying that question has been debated in cultural academic and clinical settings for millennia This book provides an overview of how people have conceptualized and understood mental illness through the ages The book begins by looking at mental illness in humanity's evolutionary past then moves through the major historical epochs the mythological the Classical the Middle Ages the Renaissance the Enlightenment and modern and the postmodern At each point it focuses on major elements that emerged regarding how people judged sanity and insanity and places major emphasis on the growing fields of psychiatry and psychology as they emerged and developed As the book moves into the twenty first century Dr Jenkins presents his integrated model of knowledge a systemic holistic model of the psyche that creates a conceptual foundation for understanding both psychological wellness and disorder and approaching assessment and diagnosis This text provides a valuable exploration of mental health and illness across the ages and gives those already well versed in the subject matter a fresh perspective on the past and new model of knowledge and assessment for the future **Standard Catalog for High**

Thomas, Douglas Richardson, Ivan Cheung, 2008-09-24 Making Connections Geography and Drug Addiction Geography involves making connections connections in our world among people and places cultures human activities and natural processes It involves understanding the relationships and connections between seemingly disparate or unrelated ideas and between what is and what might be Geography also involves connecting with people When I first encountered an extraordinarily vibrant intelligent and socially engaged scientist at a private dinner several years ago I was immediately captivated by the intensity of her passion to understand how and why people become addicted to drugs and what could be done to treat or prevent drug addiction Fortunately she was willing to think beyond the bounds of her own discipline in her search for answers Our conversation that evening which began with her research on fundamental biochemical processes of drug addiction in the human body evolved inevitably to an exploration of the ways in which research on the geographical context of drug addiction might contribute to the better understanding of etiology of addiction its diffusion its interaction with geographically variable environmental social and economic factors and the strategies for its treatment and prevention This fascinating woman I soon learned was Nora Volkow the Director of the National Institute on Drug Abuse as well as the granddaughter of Leon Trotsky **ADAMHA News on Alcohol, Drug Abuse, and Mental Health** , 1987 Nursing Diagnosis Handbook - E-Book Betty J.
