Understanding Children and Childhood Anne B. Smith, 2013-11-22 Emphasising the voices and rights of children, international expert Anne Smith examines the latest thinking on children's learning and development. Contemporary theories and research about children and childhood are explained using observations from children's everyday experiences and debates about policy. A sociocultural perspective presents development as driven by a child's learning supported by opportunities for reciprocal social interaction across diverse cultural contexts.

Understanding the Life Course Lorraine Green, 2016-12-20 Understanding the Life Course provides a uniquely comprehensive guide to the entire life course from an interdisciplinary perspective. Combining important insights from sociology and psychology, the book presents the concepts' theoretical underpinnings in an accessible style supported by real-life examples. From birth and becoming a parent to death and grieving for the loss of others, Lorraine Green explores all stages of the life course through key research studies and theories in conjunction with issues of social inequality and critical examination of lay viewpoints. She highlights the many ways the life course can be interpreted, including themes of linearity and multidirectionality, continuity and discontinuity, and the interplay between nature and nurture. The second edition updates key data and includes additional material on topics such as new technologies, changing markers of transitions to adulthood, active ageing, resilience, and neuropsychology. This comprehensive approach will continue to be essential reading for students on vocational programmes such as social work and nursing and will provide thought-provoking insight into the wider contexts of the life course for students of psychology and sociology.
