Wixson, Timothy Shanahan, 2012-11-29 Nearly every state has independently adopted the Common Core State Standards CCSS making this practical guide an indispensable resource for grades 3-5 teachers and teachers in training. Leading authorities explain each of the English language arts ELA standards and vividly show how to implement them. The book is filled with grade-specific classroom vignettes, instructional strategies and activities, sample lesson plans, and discussion questions. Chapters cover the major ELA strands: reading, literature, informational texts, and foundational skills; writing, speaking, and listening; and language. Issues of assessment and technology integration are also explored. An appendix includes thematic units for each grade level demonstrating ways to embed CCSS ELA standards into content area instruction. Curriculum Kacie Michelle Nadeau, 2017 The most recent phase of curriculum reform in the era of accountability is the Common Core State Standards CCSS which have essentially reshaped the landscape of public education Its objective of preparing K 12 students for college and career upon high school graduation have prioritized English language arts mathematics and science over social studies which is not part of widespread high stakes testing for elementary students This qualitative case study investigated eleven intermediate elementary teachers perceptions of alignment between CCSS and the elementary social studies curriculum Data gathering analysis included two semi structured interviews and an archival analysis of the mandated curriculum The data revealed that perceptions of alignment vary among teachers and were influenced by the perceived effects of inadequate instructional time and resources lack of content knowledge and insufficient district levels of professional support Teachers perceived some similarities between the methods of thinking skills such as historical thinking and higher order thinking and the English Language Arts standards of the Common Core and their district social studies curriculum Despite perceived inadequate instructional time and resources teachers believed that elementary social studies must be an instructional priority and found ways to include social studies through interdisciplinary approaches Recommendations include district level professional development focused on an integration between CCSS and social studies modeled in classroom practices These approaches may improve use of instructional time and resources and reduce the marginalization of elementary social studies
