United States Army in WWII - the Pacific - Strategy and Command: the First Two Years Professor Louis Morton, 2014-08-15 With 13 tables 16 charts 17 maps 8 diagrams its weapons are not bombs and guns but the mountains of memoranda messages studies and plans that poured forth from the deliberative bodies entrusted with the conduct of the war its sound is not the clash of arms but the cool voice of reason or the heated words of debate thousands of miles from the scene of conflict It deals with policy and grand strategy on the highest level war aims the choice of allies and theaters of operations the distribution of forces and supplies and the organization created to use them On only a slightly lower level it deals with more strictly military matters with the choice of strategies with planning and the selection of objectives with the timing of operations the movement of forces and finally their employment in battle Strategy in its larger sense is more than the handmaiden of war it is an inherent element of statecraft akin to policy and encompasses preparations for war as well as the war itself Thus this volume treats the prewar period in some detail not in any sense as introductory to the main theme but as an integral and important part of the story of Pacific strategy The great lessons of war it has been observed are to be found in the events preceding the outbreak of hostilities It is then that the great decisions are made and the nature of the war largely determined

Geoeconomic Risks in Europe and the Indo-Pacific Region Sang Chul Park, Yun-Chen Lai, 2025-05-28 This book explores the evolving landscape of global political economy amidst a shifting global order ushered in by the impacts of the COVID 19 pandemic geopolitical conflicts in Ukraine and Gaza and rising trade and political disputes between the US China and the EU leading to a rise in protectionist policies and disruptions in global supply chains leading to high inflation and energy and food crises Focusing on the relations between the European Union and the Indo Pacific region this book examines how recent protectionist policies are reshaping economic

security and cooperation between the two actors *America's Stake in the Pacific* Paul Seabury,1981 Countries of the Western Pacific allied with the United States Japan South Korea the Philippines and Taiwan are seriously threatened by Soviet expansion and Sino Soviet rivalry At present when the United States military resources are stretched thin responsibility for defense of these prosperous free states should be assumed by the states themselves and Japan especially must play a far greater strategic role in maritime defense An organic Pacific security community that would be buttressed by its own economic dynamism should be created Such a Pacific security community is impossible without the presence of the United States as an active partner It can therefore be possible only when the United States once more is morally committed and militarily able to respond to the ominous growth of Soviet military power Included are the texts of the Shanghai Communique February 27 1972 the Joint Communique on the Establishment of Diplomatic Relations the United States and the People s Republic of China January 1 1979 and the Taiwan Relations Act April 10 1979 BZ Japanese Military Strategy in the Pacific War James B. Wood,2007 In this provocative history James B Wood challenges the received wisdom that Japan s defeat in the Pacific was historically inevitable He argues instead that it was only when the Japanese military abandoned their original strategic plan to secure resources and establish a viable defensible perimeter that the Allies were able to regain the initiative and lock Japanese forces into a war of attrition they were not prepared to fight The book persuasively shows how the Japanese army and navy had both the opportunity and the capability to have fought a different and more successful war If Japan had traveled that alternate military road the outcome of the Pacific War could have been far different from the ending we know so well and perhaps a little too complacently accept **Maritime Security in the Indian Ocean and Western Pacific** Howard M. Hensel,Amit Gupta,2017-11-28 Scholars and policy makers have traditionally viewed portions of the Indian Ocean and the Western Pacific as separate and discrete political economic and military regions In recent years however a variety of economic political and military forces have made many within the academic community as well as a growing number of national governmental leaders change their perceptions and recognize that these maritime expanses are one zone of global interaction Consequently political military and economic developments in one maritime region increasingly have an impact elsewhere Analyzing and assessing the contemporary maritime challenges in the Indian Ocean and the Western Pacific this valuable study highlights the current prospects for peace and security in what is rapidly becoming recognized as an integrated and interactive political military strategic and economic environment This work will be of interest to researchers and policy makers involved in regional studies as well as security studies conflict resolution military and peace studies Security Order and Strategic Alignment in Europe and the Asia-Pacific Elena Atanassova-Cornelis,Yoichiro Sato,Tom Sauer,2025-03-18 Elena Atanassova Cornelis Yoichiro Sato Tom Sauer and their contributors examine the implications of the shifts in power for the regional security order as the longterm relative decline of the US standing in the global hierarchy of power is more pronounced than ever due to the challenges it faces from the rising

China in Asia and the reviving Russia in Europe The world is in disarray and the balance of power is shifting which results in enhanced tensions and wars including on the territory of Europe The complexity of the international order that prevails today possibly misleads us toward viewing everything in terms of a bipolar competition as predicted by systemic level realism While membership of the multilateral NATO Alliance expands in Europe in light of the ongoing Russian invasion of Ukraine China's assertive behavior in Asia has produced numerous strategic alignments that are short of a formal alliance involving Asian states the US and European countries Hedging strategies are commonly found in Asian states approaches to security working against the bifurcation of powers Contrarily European entries into alignments in the Indo Pacific have demonstrated the inseparability of security in Asia from security in Europe through the shared thread of engaging the US Whether China defines its challenge against the US in regional or global terms also has differing implications for the evolution of the international system This book with contributions by Asian European and North American experts provides an overview of the two regions differing alignment paths in comparative and inter regional perspectives The book is a valuable resource for academics researchers practitioners and policy analysts interested in European and Asia Pacific security as well as international and regional security issues **Pacific Affairs** ,1929 Includes book reviews and bibliographies
