parent and can assess the child's health and advise parents on how to provide a healthy environment and important practices to nurture healthy children. The book provides realistic scenarios encountered by new nurse practitioners in their clinical training. It is structured in a question and answer framework to help practitioners critically think through the best practices to be implemented during the well child visit and develop a plan of action for the family. This book provides assessment and diagnostic criteria and tools and presents common developmental and behavioral issues for each age group. The book promotes the role of professional as advocate by making recommendations for broad social policies to help all children succeed.

Tails Are Not for Pulling Elizabeth Verdick, 2005-09-15. Pets may not have words but they can communicate. Paying attention to an animal's cues—a joyful bark, a scary growl, a swishing tail—can help a child understand what the animal is saying and what an appropriate response might be. That's part of what this book is about. But mostly it's about showing children how to love pets gently because pets are for loving after all. Kids learn that teasing isn't nice, that they can choose to be kind to animals, and that if you want to touch someone else's pet, there's one important rule you should know: Ask the owner first. A special section for adults includes ideas for teaching kindness to animals, activities, and discussion starters.

Hands Are Not for Hitting Martine Agassi, 2009-03-15. Children learn that violence is never okay, that they can manage their anger and other strong feelings, and that they're capable of positive loving actions like playing, making music, learning, counting, helping, taking care, and much more. Includes a special section for adults with activities and discussion starters.

Screen Time Is Not Forever Elizabeth Verdick, 2021-06-23. Children learn boundaries and safety when using screens and fun things to do when screens are off. As important as screens are in our lives, we all need to unplug, especially children. This reassuring picture book offers children and families a starting point for limiting screen time and making the most of the time you have with your screens and without. While screens can be helpful and fun, they are not intended for use all the time. The American Academy of Pediatrics recommends consistent limits on screen time, and adults should take steps to ensure online safety for kids. With straightforward suggestions, children will learn valuable information about online safety, setting healthy screen time boundaries, and the importance of screen-free time. With her trademark mix of empathy and encouragement, author Elizabeth Verdick offers appealing and healthy alternatives to using screens, as well as ways to stay safe and happy when online. Illustrator Marieka Heinlen's active and vibrant illustrations of young children interacting with their caregivers and families bring the activities and suggestions for screen-free fun to life. A section for adults at the end of the book includes information on the effects of too much screen time and suggestions for establishing screen time boundaries. Best Behavior Series. Simple words and lively full-color illustrations guide children to choose positive behaviors. Select titles are available in two versions: a durable board book for ages 1-4 and an expanded paperback for ages 4-7. Bilingual board book and paperback editions of select titles also are available. Kids, parents, and teachers love these award-winning books. All include helpful tips for teachers, caregivers, and parents.
