It will be a welcome addition to any academic library or research institution.

Inventing a Voice Molly Meijer Wertheimer, 2004-10-27. Inventing a Voice is a comprehensive work on the lives and communication of twentieth-century first ladies. Using a rhetorical framework, the contributors look at the speaking, writing, media coverage, and interaction and visual rhetoric of American first ladies from Ida Saxton McKinley to Laura Bush. The women's rhetorical devices varied; some practiced a rhetoric without words while others issued press releases, gave speeches, and met with various constituencies. All used interpersonal or social rhetoric to support their husbands' relationships with world leaders, party officials, boosters, and the public. Featuring an extensive introduction and chapter on the First Lady as a Site of American Womanhood, Wertheimer has gathered a collection that includes the post-White House musings of many first ladies capturing their reflections on public expectations and perceived restrictions on their communication.

Children Rights and Wellbeing in India Joseph A Gathia, Sanjay V. Gathia, 2015-01-01 India has emerged as one of the fastest growing markets in the world. But what does it mean to its children? Of total estimated population in 2014 as 1.236 billion, nearly 28.5 % are below age of 14 years. Despite such a huge child population in India, the issues that affect their lives and even survival tend to receive remarkably little attention. This study *Children's Rights and Well being in India: Law, Policy and Practice* Volume I, II and III is one among the few to address this theme on such a wide canvas that spans both time frame and issues. There has been a growing interest over the past decade in the concept of child's rights among policy makers, practitioners and academics in both India and internationally. But does it mean the same thing to children and families as it does to policy makers? How can it be measured? And if it has begun to impact on government policy, has it made any difference to children's lives? The three volume study *Children's Rights and Well being in India* provides an overview of key child development policies, programmes, laws, trends and raises pertinent questions about their potential impact on children's rights. The challenges of improving children's well being go beyond the provision of more effective public services, important though these are. The bigger questions are: how can we create a society in which children are better valued and parents better supported in bringing up their children? And what can be done to reduce inequalities which influence every aspect of children's well being? This book makes use of a variety of sources of data including that of Govt of India, the World Bank and UN agencies particularly the UNICEF and the ILO. All the three volumes of *Children's Rights and Well being in India* are an essential text for all those who want to understand the crisis threatening our children's future.

Debates in Citizenship Education James Arthur, Hilary Cremin, 2012 *Debates in Citizenship Education* encourages student and practising teachers to engage with and reflect on key topics, concepts and debates that they will have to address throughout their career. It places the specialist field of citizenship education in the wider context and aims to enable teachers to reach their own informed judgements and argue their point of view with deeper theoretical knowledge and understanding.

Nurturing Young Children as Spiritual Beings in a Globalized World Elizabeth Rouse, Brendan Hyde, Tony Eaude, 2024-10-17 This book brings together leading academics and practitioners to provide research informed strategies for nurturing young children as spiritual beings. Globalization and performativity have led to a narrowing of

education in early years settings and schools and this book considers the types of knowledge and capabilities children and educators need to address the challenges this presents. The chapters explore and critique existing practices in a range of areas including sustainability, inclusion, relationships with parents, ethics of care and the role of the arts. Written by contributors based in Australia, Canada, Malta, the UK and the USA, the book offers theoretical discussion and practical strategies to help educators nurture young children's spirituality, emphasising holistic approaches and caring relationships as an antidote to current neoliberal discourse.

Rethinking Children as Consumers Cyndy Hawkins, 2016-09-13. Children are significant consumers of services such as health, welfare, educational institutions and the environment. Alongside this, the marketization of childhood means that children are exposed to advertising and marketing through a wide range of media on a daily basis. Examining key debates on children's power, status and citizenship issues, it considers the wider implications of how consumerism impacts on children's health, well-being and life chances. This timely book explores childhood and consumerism through four key strands: children as consumers of services, children as consumers of space, the link between citizenship and consumption, and the influences of the marketization of childhood. *Rethinking Children as Consumers* will be essential reading for students, researchers, practitioners and policy makers who are interested in the topic of consumerism across early childhood, childhood, youth and society.

Social Development in South Africa Ndangwa Noyoo, 2025-10-29. This book interrogates and discusses social development in post-apartheid South Africa as both an approach to an overarching development process and an envisaged end state of well-being. It critically analyses social development in the context of a middle-income African country that is still not only shaped and defined in many ways by a corrosive history of colonialism and apartheid but is also still saddled with a plethora of social ills which are by-products of the former eras. Despite the former governing party's characterisation of South Africa as a Developmental State, the country remains one of the most unequal societies in the world. The book argues that the vestiges of colonialism and apartheid cannot be addressed solely by economic growth and associated activities but require a multiplicity of social, economic and political interventions that should be marshalled by both the state and civil society through a robust, comprehensive and transformative social development process that is underpinned by indigenous knowledge systems and forms of care that respond to human needs at the micro and macro levels. The book argues that social development is one of the best vehicles that could enable South Africa to decisively deal with the remnants of colonialism and apartheid as well as become a developmental state. Furthermore, it elucidates how social development should result in, among others, improvements in human well-being, social relations and social institutions that are equitable, sustainable and compatible with principles of democratic governance and social justice. It proffers practical steps on how social development could enable South Africa to become a developmental state. Lastly, the book shows how social policy and economic policy can be conjoined in South Africa to arrive at a holistic process of social development that will facilitate the building of a developmental state in the country. *Social Development in South Africa* is

primarily intended for students academics and researchers who are interested in social development international or African social work community development and social policy as well as policy makers and civil society actors
