Weber And Toennies Comparative Sociology In Historical Perspective:

Weber and Toennies Werner J. Cahnman, 2011-12-31 This collection of selected essays by Werner J Cahnman brings together out of scattered dispersion his writings about Max Weber Ferdinand Toennies and historical sociology The great theoretical range and depth of his intellect and mastery of sociological thinking is apparent as he discusses the impact of romanticism on modern thought and how Weber and Toennies both analyzed and reacted to modernity Cahnman places Weber 1864 1920 the dominant figure in twentieth century sociology in the midst of the methodological controversies so characteristic of contemporary social science and he fully discusses the overarching importance of Weberian ideal type theory Although less well known than Weber Toennies 1855 1936 was also a sociologist of the first rank He is best remembered for his enormously influential twin concepts Gemeinschaft and Gesellschaft which contributed to our understanding of the historical and sociological basis for the change from premodern to modern societies The essays in this volume establish Toennies intellectual connections to Karl Marx Max Weber Emile Durkheim and Herbert Spencer and clarify his influence upon American sociology Cahnman stood against strict separations between history and sociology and his essays are all informed by a wonderful admixture of the theoretical and the concrete They demonstrate how a genuine historical sociology not unlike that of Weber and Toennies can find and explain linkages between seemingly disparate events spanning time and place This volume will be of interest to sociologists political scientists and intellectual historians

Weber and Toennies Joseph B. Maier, 2017 This collection of selected essays by Werner J Cahnman brings together out of scattered dispersion his writings about Max Weber Ferdinand Toennies and historical sociology The great theoretical range and depth of his intellect and mastery of sociological thinking is apparent as he discusses the impact of romanticism on modern thought and how Weber and Toennies both analyzed and reacted to modernity Cahnman places Weber 1864 1920 the dominant figure in twentieth century sociology in the midst of the methodological controversies so characteristic of contemporary social science and he fully discusses the overarching importance of Weberian ideal type theory Although less well known than Weber Toennies 1855 1936 was also a sociologist of the first rank He is best remembered for his enormously influential twin concepts Gemeinschaft and Gesellschaft which contributed to our understanding of the historical and sociological basis for the change from premodern to modern societies The essays in this volume establish Toennies intellectual connections to Karl Marx Max Weber Emile Durkheim and Herbert Spencer and clarify his influence upon American sociology Cahnman stood against strict separations between history and sociology and his essays are all informed by a wonderful admixture of the theoretical and the concrete They demonstrate how a genuine historical sociology not unlike that of Weber and Toennies can find and explain linkages between seemingly disparate events spanning time and place This volume will be of interest to sociologists political scientists and intellectual historians Provided by publisher Weber & Toennies Werner Jacob Cahnman, Joseph Maier, Judith Marcus, Zoltán Tarr, 1943 Selected essays dealing with Max Weber

Ferdinand Toennies and the historical sociology **Weber and Toennies** Joseph B. Maier, 2017-09-08 This collection of selected essays by Werner J Cahnman brings together out of scattered dispersion his writings about Max Weber Ferdinand Toennies and historical sociology The great theoretical range and depth of his intellect and mastery of sociological thinking is apparent as he discusses the impact of romanticism on modern thought and how Weber and Toennies both analyzed and reacted to modernity Cahnman places Weber 1864 1920 the dominant figure in twentieth century sociology in the midst of the methodological controversies so characteristic of contemporary social science and he fully discusses the overarching importance of Weberian ideal type theory Although less well known than Weber Toennies 1855 1936 was also a sociologist of the first rank He is best remembered for his enormously influential twin concepts *Gemeinschaft* and *Gesellschaft* which contributed to our understanding of the historical and sociological basis for the change from premodern to modern societies The essays in this volume establish Toennies intellectual connections to Karl Marx Max Weber Emile Durkheim and Herbert Spencer and clarify his influence upon American sociology Cahnman stood against strict separations between history and sociology and his essays are all informed by a wonderful admixture of the theoretical and the concrete They demonstrate how a genuine historical sociology not unlike that of Weber and Toennies can find and explain linkages between seemingly disparate events spanning time and place This volume will be of interest to sociologists political scientists and intellectual historians *Max Weber and the New Century* Alan Sica, This work documents the continuing usefulness of Max Weber's unrivalled social thought It offers a series of linked studies that treat Weber's concept of rationalization as expressed in different cultural forms and Weber's relationship to modern philosophical thought Weber's Rationalism and Modern Society , 2015-04-08 Weber's Rationalism and Modern Society rediscovers Max Weber for the twenty first century Tony and Dagmar Waters translation of Weber's works highlights his contributions to the social sciences and politics credited with highlighting concepts such as iron cage bureaucracy bureaucratization rationalization charisma and the role of the work ethic in ordering modern labor markets Outlining the relationship between community *Gemeinschaft* and market society *Gesellschaft* the issues of social stratification power politics and modernity resonate just as loudly today as they did for Weber during the early twentieth century **Constructive Sociological Theory** Tomáš Garrigue Masaryk, Alan Woolfolk, Jonathan B. Imber, 1994-01-01 This compilation of some of Masaryk's major writings reveals the intertwining of politics and social theory that is characteristic of his thinking Chapters in *Constructive Sociological Theory* include The Development of the Modern Suicide Tendency Essence and Method of Sociology The Epistemological Problem of Russian Philosophy The Religious Question and Modern Philosophy The Class Structure of Society Central Problems of Marxist Policy and Democracy versus Theocracy The French Sociological Tradition Hichem Karoui, 2024-07-06 The research background of this book is the rich and complex history of French sociology characterized by rigorous intellectual inquiry and diverse theoretical perspectives that have profoundly impacted global sociology The driving idea behind the book Unlock the Legacy

of French Sociology is to provide a comprehensive exploration of the rich and influential history of French sociology. The book aims to detail the development of French sociological thought, examining the contributions of key figures like mile Durkheim, Pierre Bourdieu, and others. It also seeks to highlight both well known and lesser known aspects of French sociological theory, as well as contemporary trends and practical applications in modern research. The ultimate goal is to offer an authoritative reference and engaging read for students, scholars, and anyone interested in understanding the legacy and ongoing impact of French sociology on global sociological thought.

The research methodology proposed in this book involves a comprehensive examination of the development of French sociology, its historical context, key figures, and contributions to sociological theory and research. The task is to provide an authoritative reference and engaging read for students, scholars, and anyone interested in understanding French sociology's history and influence. The performance achieved is a detailed exploration of French sociological thought, which supports their goals.

Methods: Examination of the historical context of French sociology
Analysis of key figures and their contributions to sociological theory
Exploration of lesser known but significant aspects of French sociological thought
Discussion of contemporary trends and practical applications in modern research
Conclusion: The significance of this piece of work lies in its detailed exploration of the rich and influential history of French sociology and its ongoing impact on sociological thought.

Innovation point: Comprehensive examination of both well known and lesser known aspects of French sociological thought
Performance: Detailed and insightful analysis of key figures and theories
Workload: Extensive research and synthesis of historical and contemporary sociological contributions

Society, Economics, and Philosophy Michael Polanyi, 2011-12-31

Society, Economics, and Philosophy represents the full range of Polanyi's interests outside of his scientific work: economics, politics, society, philosophy of science, religion, and positivist obstacles to it, and art. Polanyi's principal ideas are contained in three essays on the scientific revolution, the creative imagination, and the mind-body relation. Precisely because of Polanyi's work in the physical sciences, his writings have a unique dimension not found in other advocates of the market and too infrequently found even in philosophers of science. Polanyi was a powerful critic of totalitarianism and of the deficiencies of the usual defenses of freedom, which helped to prepare the way for it. Freedom, he argued, can be based only upon truth and dedication to transcendent ideals, not upon skepticism, utilitarianism, and the liberty of doing merely as one pleases. At a time when easy slogans about socialism were dominant in intellectual circles, epitomized by Sidney and Beatrice Webb, and when calls for the central planning of scientific research were made by such as J. D. Bernal, Polanyi exposed their errors and showed that science can flourish only in a free society. More radically than even von Mises and Hayek, Polanyi showed that an industrial economy can operate only polycentrically; that central planning is logically impossible and that what was called by that name in the Soviet Union was in reality no such thing. Likewise, scientific research can proceed not by a central plan but only by the spontaneous self-adjustment of separate initiatives to discover a common reality. Against the positivism dominant within philosophy of science, he argued that the notion of reality must be

restored and made central Yet physical sciences he also argued are only one branch of science and the sciences of life and mind are logically richer and more complex and cannot be reduced to the former nor mind to body or to computers nor art to its physical bases This volume makes accessible the most important of those of Polanyi s published articles which were not incorporated into any of his books It also includes a full bibliography and brief summaries of the articles which were not included both prepared by the editor both prepared by the editor Dr R T Allen editor of *Appraisal* a journal inspired by Polanyi who has published books and articles on Polanyi both at home in Britain and abroad Economic Life in the Modern Age Werner Sombart,Nico Stehr,Reiner Grundmann, Werner Sombart 1863 1941 may well have been the most famous and controversial social scientist in Germany during the early twentieth century Highly influential his work and reputation have been indelibly tainted by his embrace of National Socialism in the last decade of his life Although Sombart left an enormous opus spanning disciplinary boundaries intellectual reaction to his work inside and outside of Germany is divided and ambivalent Sombart consistently responded to the social and political developments that have shaped the twentieth century *Economic Life in the Modern Age* provides a representative sampling of those portions of Sombart s work that have stood the test of time The volume opens with a substantial introduction reviewing Sombart s life and career the evolution of his major intellectual concerns his relation to Marx and Weber and his political affiliation with the Nazis The editors selection of texts emphasizes areas of Sombart s economic and cultural thought that remain relevant particularly to those intellectual trends that seek a more broadly based cross disciplinary approach to culture and economics Sombart s writings on capitalism are represented by essays on the nature and origin of the market system and the diversity of motives among the bourgeoisie and the proletariat Also included is an excerpt from Sombart s controversial *The Jews and Modern Capitalism* exploring the widely perceived relation between economic life and Judaism as a religion In essays on the economics of cultural processes Sombart s comprehensive and expansive idea of cultural science yields prophetic insights into the nature of urbanism luxury consumption fashion and the cultural secularization of love The volume s final section consists of Sombart s reflections on the social influences of technology the economic life of the future and on socialism including the influential essay *Why is there no Socialism in the United States* Encapsulating the most valuable aspects of his work *Economic Life in the Modern Age* provides clear demonstration of Sombart s sense for fine cultural distinctions and broad cultural developments and the predictive power of his analyses It will be of interest to sociologists economists political scientists and specialists in cultural studies Nico Stehr is professor at the Max Planck Institut f r Meteorologie in Hamburg Reiner Grundmann is professor at the Aston Business School of Aston University in Birmingham U K Surviving the Twentieth Century Judith T. Marcus,2018-04-27 *Surviving the Twentieth Century* celebrates the achievements of the renowned sociologist Joseph Maier A superb teacher and respected scholar of formidable scope Maier s work encompassed a variety of disciplines including sociology philosophy and political science He is well known for his comparative research on Latin America as well as Jewish

law and tradition As Judith Marcus observes Maier helped to establish comparative historical sociology as an acknowledged field of study This volume records and pays tribute to his scholarship and significant public service The volume is divided into parts reflecting the breadth of Maier s intellectual interests Contributors are drawn from a variety of fields and geographical arenas Part 1 consists of biographical interviews and personal observations on Maier and his work by Herman Berlinski David Berlinski Geoffrey Lloyd Enrique Krauze and Aaron W Warner Part 2 includes contributions addressing some of the main themes in Maier s work the interaction of nationalism community and personal identity the impact of politics on social science culture politics and religion Contributors include Abraham Edel William Safran Reinhard Kreckel Zoltan Tarr Sandro Segre Ludwig von Friedberg Irving Louis Horowitz Judith Marcus Editfi Kurzweil Paul Neurath Ruth Rubinstein Andrew P Lyons and Harriet D Lyons Tony Carnes and Elfriede Uner Part 3 reflects the impact of Maier s work on other scholars It includes essays on philosophy religion literature and intellectual responsibility Contributors include Tom Rockmore Laurent Stern Edmund Leites Alfred Schmidt Norbert Altwicker Rita Kuczynski Gerard Raulet and Peter Gottwald Part 4 covers the influence of crisis on Jewish intellectual life and includes contributions by Herbert Strauss Emanuel Maier Leon A Feldman Hannelore Kunzl and Johann Maier The volume concludes in part 5 with personal tributes to Maier by Curt C Silberman C Alexander Weinstock and Helen Hacker The volume includes an illuminating introduction by Judith Marcus thematic essay by Joseph Maier and a selected bibliography of his work Scholars who have been influenced by Maier will welcome this volume Those who are not familiar with the scope of his contributions will benefit from the experience of seeing how his work has affected the choices of others This is the 24th volume issued in Transaction s distinguished scholar festschrift series

Jews and Gentiles Werner J. Cahnman, 2017-12-02 Studies of the Jewish experience among peoples with whom they live share some similarities with the usual histories of anti-Semitism but also some differences When the focus is on anti-Semitism Jewish history appears as a record of unmitigated hostility against the Jewish people and of passivity on their part However as Werner J Cahnman demonstrates in this posthumous volume Jewish Gentile relations are far more complex There is a long history of mutual contacts positive as well as antagonistic even if conflict continues to require particular attention Cahnman s approach while following a historical sequence is sociological in conception From Roman antiquity through the Middle Ages into the era of emancipation and the Holocaust and finally to the present American and Israeli scene there are basic similarities and various dissimilarities all of which are described and analyzed Cahnman tests the theses of classical sociology implicitly yet unobtrusively He traces the socio economic basis of human relations which Marx and others have emphasized and considers Jews a marginal trading people in the Park Becker sense Simmel and Toennies he shows understood Jews as strangers and intermediaries While Cahnman shows that Jews were not pariahs as Max Weber thought he finds a remarkable affinity to Weber s Protestantism capitalism argument in the tension of Jewish Christian relations emerging from the bitter theological argument over usury The primacy of Jewish Gentile relations in all their complexity and variability is essential for

the understanding of Jewish social and political history This volume is a valuable contribution to that understanding

Sociological Beginnings Christopher Adair-Totter, 2006-01-01 This is a translated edition of five of the nine papers and the responses presented at the first conference of the Deutsche Gesellschaft für Soziologie DGS that was held in 1910 These are seminal contributions by some of the founders of classical German sociology and social theory including Max Weber Georg Simmel Ferdinand Tönnies Ernst Troeltsch and Werner Sombart A substantial introduction discusses the lives and works of the five thinkers placing them in the context of Germany in the early twentieth century and discussing their personal and societal connections The papers none of which has ever appeared in English are a remarkable testament to the developing thought of key scholars The year 1910 was a defining year for German sociology There were still no sociology schools departments or even professorships but a significant number of important thinkers had published crucial sociological works Through such publications Ferdinand Tönnies Georg Simmel Max Weber Werner Sombart and Ernst Troeltsch had founded considerable reputations and by 1909 the first three had banded together with other scholars to form the DGS The papers show German sociology at a decisive moment when these thinkers were at their prime and were engaged in building a new society devoted to investigation of social reality based upon sound scholarly principles and free from biased social dogmatics The topics continue to have relevance and the exchanges provide a lively dimension one that is not found simply by reading the books of these five founders of sociological thinking

Dreams in Exile George E. McCarthy, 2009-03-09 The classical origins of nineteenth century social theory are illuminated in this sequel to the award winning Classical Horizons The Origins of Sociology in Ancient Greece George E McCarthy stresses the importance of Aristotle and Kant in the creation of a new type of social science in the nineteenth century that represented a critical reaction to Enlightenment rationality and modern liberalism The seminal social theorists Marx Durkheim and Weber integrated Aristotle's theory of moral economy and practical wisdom phronesis with Kant's theory of knowledge and moral autonomy The resulting social theories uniquely supported by a view of practical science that wove together science and ethics proved instrumental to the development of modern sociology and anthropology

Roads to Dystopia, Sociological Essay on the Post Modern Condition (c) Stanford M. Lyman, 2001 **Key Ideas in Sociology** Peter Kivisto, 2010-05-13 The only compact and portable book for undergraduate readers that links issues regarding post modern society to the ideas and individuals that gave rise to sociological thinking in the late 19th century Students too often learn about social theorists as unconnected with one another Key Ideas in Sociology shows how ideas developed by one theorist evolve and are further shaped by subsequent theorists reflecting on different historical circumstances Peter Kivisto offers a genuinely integrated view of the history of social thought linking classical sociological ideas to today's thinking about contemporary life He shows how theorizing is not a dry abstract exercise but a practical human necessity in the ongoing quest to understand and cope with our complex and ever changing social conditions

Understanding Communication Research Methods Stephen M. Croucher, Daniel

Cronn-Mills,2018-11-07 Using an engaging how to approach that draws from scholarship real life and popular culture this textbook offers students practical reasons why they should care about research methods and a guide to actually conducting research themselves Examining quantitative qualitative and critical research methods this new edition helps undergraduate students better grasp the theoretical and practical uses of method by clearly illustrating practical applications The book features all the main research traditions within communication including online methods and provides level appropriate applications of the methods through theoretical and practical examples and exercises including new sample student papers that demonstrate research methods in action Also featuring dedicated student resources on the Routledge com book page and instructor resources at https://routledge.com/textbooks/instructor_downloads These include links videos outlines and activities recommended readings test questions and more

The Foundations of Institutional Economics K.

William Kapp,2012-05-23 This is a ground breaking book about the foundations of institutional economics K William Kapp presents the economic role of institutions for economic development capital formation and technological dynamics in an easily accessible and comprehensive manner As a front rank 20th century institutional economist Kapp pulls together arguments from a variety of sources including Thorstein Veblen John Kenneth Galbraith and Gunnar Myrdal all of which emphasize the crucial role of institutions The author cements institutional economics as a distinct and coherent framework of analysis to effectively address urgent socio economic problems such as environmental disruption and sustainable development This book begins with a critique of conventional neoclassical economics and an overview of the antecedents of institutional economics The core of the book is formed by the chapters on institutions human economic behavior and needs arguing that institutional change is key to directing economic development towards sustainable and adequate living conditions rather than merely formal growth formulas The final chapters provide the reader with the institutional theories of capital and technology showing how capital formation and technological dynamics are determined by institutions such as the principle of investment for profit The appendix complements Kapp s plea for institutional change with articles on science and technology social costs substantive economics and circular and cumulative causation This book is suited for readers at all levels who are interested in institutional economics the history of economics thought political economics as well as ecological and heterodox economics Researchers and students will find it to be an easily accessible and a concise elaboration on the foundations of institutional economics

Max Weber Alan Sica,2017-09-08 The most profound and enduring social theorist of sociology s classical period Max Weber speaks as cogently to concerns of the new century as he did to those of the past In Max Weber and the New Century Alan Sica demonstrated Weber s preeminent position and lasting vitality within social theory by applying his ideas to a broad range of topics of contemporary concern Max Weber A Comprehensive Bibliography is a companion volume that offers some 4 600 bibliographic listings of work on Weber making it the most complete guide to the literature in English and a testament to the continued vitality of Weber s thought Sica s work supersedes all previous

bibliographical efforts covering the Weber literature both in the quantity and accuracy of its references and the clarity and convenience of its format In order to demonstrate the enormous variety of Weberiana in English Sica has adopted a liberal criterion for inclusion rather than a critical one choosing to mix the best with what may be more routine work Following a preface in which previous bibliographies and bibliographic problems are discussed the volume opens with a series of five specialized bibliographies The first lists Weber s works in English translation The second lists reviews of Weber s major works including those translated into English while the third covers reviews of recent books and other work on Weber The fourth section contains a selection of dissertations and theses relating to Weber or his ideas The fifth includes primary and secondary sources treating Weber on rationality and rationalization processes The last and largest section offers a comprehensive Weber bibliography of works in English This large scale endeavor attempts to identify with accuracy and completeness the entire universe of Weber scholarship in English It will be an essential scholarly tool for sociologists historians economists and students of cultural and intellectual history

The Anthem Companion to Ferdinand Tönnies

Christopher Adair-Totef, 2016-06-19 The Companion is a collection of articles covering noted German sociologist Ferdinand Tönnies full range of thinking Topics include Tönnies and the development of sociology Tönnies on community on globalization on gender and the family and on crime and law They also include Tönnies views on politics on public opinion as well as on Tönnies as Hobbes scholar and his relation to Georg Simmel Each of the essays is written in a clear manner and will be understandable to the non specialist Each essay is comprehensive and will be useful to the specialist The Companion is a welcome and significant contribution to our understanding of this noted sociologist and political thinker
