A plea for whole or half holidays for employers and employed.* By Frank Fairplay Frank FAIRPLAY (pseud.),1854 *Monthly Labor Review* ,1927 The Syntax of Colophons Nalini Balbir,Giovanni Ciotti,2022-12-31 This volume is the first to attempt a comprehensive and cross disciplinary analysis of the manuscript cultures implementing the pothi manuscript form a loosely bound stack of oblong folios It is the indigenous form by which manuscripts have been crafted in South Asia and the cultural areas most influenced by it that is to say Central and South East Asia The volume focuses particularly on the colophons featured in such manuscripts presenting a series of essays enabling the reader to engage in a historical and comparative investigation of the links connecting the several manuscript cultures examined here Colophons as paratexts are situated at the intersection between texts and the artefacts that contain them and offer a unique vantage point to attain global appreciation of their manuscript cultures and literary traditions Colophons are also the product of scribal activities that have moved across regions and epochs alongside the pothi form providing a common thread binding together the many millions of pothis still today found in libraries in Asia and the world over These contributions provide a systematic approach to the internal structure of colophons i e their syntax and facilitate a vital comparative approach Monthly Labor Review United States.
