Welcoming The Stranger Among Us:

Welcoming the Stranger Among Us Catholic Church. United States Conference of Catholic Bishops, 2000 Designed for both ordained and lay ministers at the diocesan and parish levels this document challenges us to prepare to receive newcomers with a genuine spirit of welcome Life at the Center Erica Caple James, 2024-05-28 A free ebook version of this title is available through Luminos University of California Press's Open Access publishing program Visit www.luminosoa.org to learn more In Life at the Center Erica Caple James traces how faith based and secular institutions in Boston have helped Haitian refugees and immigrants attain economic independence health security and citizenship in the United States Using the concept of corporate Catholicism James documents several paradoxes of assistance arising among the Catholic Church Catholic Charities and the Haitian Multi Service Center how social assistance produces and reproduces structural inequalities between providers and recipients how these inequities may deepen aid recipients dependence and lead to resistance to organized benevolence how institutional financial deficits harmed clients and providers and how the same modes of charity or philanthropy that previously caused harm can be redeployed to repair damage and rebuild charitable brands The culmination of more than a decade of advocacy and research on behalf of the Haitians in Boston this groundbreaking work exposes how Catholic corporations have strengthened but also eroded Haitians civic power **Faith, Family, and Filipino American Community Life** Stephen M. Cherry, 2014-01-03 Stephen M Cherry draws upon a rich set of ethnographic and survey data collected over a six year period to explore the roles that Catholicism and family play in shaping Filipino American community life From the planning and construction of community centers to volunteering at health fairs or protesting against abortion this book illustrates the powerful ways these forces structure and animate not only how first generation Filipino Americans think and feel about their community but how they are compelled to engage it over issues deemed important to the sanctity of the family Revealing more than intimate accounts of Filipino American lives Cherry offers a glimpse of the often hidden but vital relationship between religion and community in the lives of new immigrants and allows speculation on the broader impact of Filipino immigration on the nation The Filipino American community is the second largest immigrant community in the United States and the Philippines is the second largest source of Catholic immigration to this country This ground breaking study outlines how first generation Filipino Americans have the potential to reshape American Catholicism and are already having an impact on American civic life through the engagement of their faith **Stepping Out of the Brain Drain** Michele R. Pistone, John J. Hoeffner, 2007-01-01 Catholic social teaching's traditional opposition to brain drain migration from developing to developed countries is due for a reassessment Stepping Out of the Brain Drain provides exactly this as it demonstrates that both the economic and the ethical rationales for the teaching's opposition to brain drain have been undermined in recent years and shows how the adoption of a less critical policy could provide enhanced opportunities for poor countries to accelerate their economic development Welcoming the stranger
