Umbreit,Jennifer Blevins,Ted Lewis,2015-07-15 Forgiveness is a profound life changing experience for many people who have been hurt by others But forgiveness is paradoxical in that if one relies on forgiveness language or if others prescribe it as an expectation the depth of that experience can be significantly compromised By the same token many people experience deep forgiveness without ever using the language of forgiveness Most of the stories in this book testify to how forgiveness is experienced primarily as an inner unburdening of negative emotions a process that is aided by safe facilitated dialogue with the offending party New research on the benefits of forgiveness is on the rise these days yet there is often little narrative to show the power of forgiveness The authors present more than twelve case studies that led up to restorative dialogue processes where parties chose to meet together Whether the case involves the murder of a loved one a burglary or the buildup of workplace tensions a common pattern emerges as both parties encounter the true humanity of the other person the negative energy stemming from the offense is transformed into a positive energy that gives both parties a deep inner peace and new freedom *New-York Observer* ,1910 **The United Presbyterian** ,1908 Public Opinion ,1867 **Dreams of Healing** Kelly Bulkeley,2003 Dreams of Healing has a tremendous healing potential of dreams in times of crisis This book focuses on the religious and spiritual dimensions of healing offers practical suggestions for caregivers who are working in a post 9 11 world is clearly written and accessible to the general reader is ideal for pastoral care and counseling courses in seminaries and for crisis counseling courses in schools of professional psychology **Chambers' Edinburgh Journal** ,1847 **Chambers's Edinburgh Journal** ,1847 **Ecologizing Education** Sean Blenkinsop,Estella C. Kuchta,2024-04-15 Ecologizing Education

explores how we can reenvision education to meet the demands of an unjust and rapidly changing world Going beyond green schooling programs that aim only to shape behavior Sean Blenkinsop and Estella Kuchta advance a pedagogical approach that seeks to instill eco conscious and socially just change at the cultural level Ecologizing education as this approach is called involves identifying and working to overcome anti ecological features of contemporary education This approach called ecologizing education aims to develop a classroom culture in sync with the more than human world where diversity and interdependency are intrinsic Blenkinsop and Kuchta illustrate this educational paradigm shift through the real world stories of two public elementary schools located in British Columbia They show that this approach to learning starts with recognizing the environmental and social injustices that pervade our industrialized societies By documenting how ecologizing education helps children create new relationships with the natural world and move toward mutual healing Blenkinsop and Kuchta offer a roadmap for what may be the most potent chance we have at meaningful change in the face of myriad climate crises Timely practical and ultimately inspirational Ecologizing Education is vital reading for any parent caregiver environmentalist or educator looking for wholistic education that places nature and the environment front and center
