We The People Volume 2 Transformations:

We the People Bruce Ackerman, 1993-03-15 In a dualist democracy the rare triumphs of constitutional politics determine the course of normal politics More than a decade in the making and the first of three volumes this compelling book speaks to all who seek to renew and redefine our civic commitments in the decades ahead *We the People, Volume 2*

Bruce Ackerman, 1991 Constitutional change seemingly so orderly formal and refined has in fact been a revolutionary process from the first as Bruce Ackerman makes clear in *We the People Volume 2 Transformations* The Founding Fathers hardly the genteel conservatives of myth set America on a remarkable course of revolutionary disruption and constitutional creativity that endures to this day After the bloody sacrifices of the Civil War Abraham Lincoln and the Republican Party revolutionized the traditional system of constitutional amendment as they put principles of liberty and equality into higher law Another wrenching transformation occurred during the Great Depression when Franklin Roosevelt and his New Dealers vindicated a new vision of activist government against an assault by the Supreme Court These are the crucial episodes in American constitutional history that Ackerman takes up in this second volume of a trilogy hailed as one of the most important contributions to American constitutional thought in the last half century Cass Sunstein *The New Republic* In each case he shows how the American people whether led by the Founding Federalists or the Lincoln Republicans or the Roosevelt Democrats have confronted the Constitution in its moments of great crisis with dramatic acts of upheaval always in the name of popular sovereignty A thoroughly new way of understanding constitutional development *We the People Volume 2 Transformations* reveals how America's dualist democracy provides for these populist upheavals that amend the Constitution often without formalities The book also sets contemporary events such as the Reagan Revolution and *Roe v Wade* in deeper constitutional perspective In this context Ackerman exposes basic constitutional problems inherited from the New Deal Revolution and exacerbated by the Reagan Revolution then considers the fundamental reforms that might resolve them A bold challenge to formalist and fundamentalist views this volume demonstrates that ongoing struggle over America's national identity rather than consensus marks its constitutional history *The Transformation of Citizenship, Volume 2* Jürgen Mackert, Bryan S. Turner, 2017-03-16 This volume *Boundaries of Inclusion and Exclusion* examines the many different and newly emerging ways in which citizenship refers to spatial symbolic and social boundaries Today in the context of citizenship we face processes of inclusion and exclusion on national and supranational level but no less on the level of groups and individuals The book addresses these different levels and discusses processes of inclusion and exclusion with regard to spatial social and symbolic boundaries referring to such different problems as political participation migration or identity with regard to religion or the EU This book will appeal to academics working in the field of political theory political sociology and European studies [Comparative Constitution Making](#) David Landau, Hanna Lerner, 2019 Recent years have witnessed an explosion of new research on constitution making *Comparative Constitution Making* provides an up to date overview of
