Weaving Work And Motherhood Weaving Work And Motherhood:

Weaving Work and Motherhood Anita Iltis Garey, 1999 In American culture the image of balancing work and family life is often represented in the glossy shot of the executive track woman balancing cell phone laptop and baby In *Weaving Work and Motherhood* Anita Iltis Garey focuses not on the corporate executives so frequently represented in American ads and magazines but rather on the women in jobs that typify the vast majority of women's employment in the United States A sociologist and work and family expert Garey situates her research in the health service industry Interviewing a racially and ethnically diverse group of women hospital workers clerical workers janitorial workers nurses and nurse's aids Garey analyzes what it means to be at once a mother who is employed and a worker with children Within the limits of the resources available to them women integrate their identities as workers and their identities as mothers by valuing their relation to work while simultaneously preserving cultural norms about what it means to be a good mother Some of these women work non day shifts in order to have the right blocks of time at home including for example a registered nurse who explains how working the night shift enables her to see her children off to school greet them when they return and attend school events in the way she feels good mothers should even if she finds little time for sleep Moving beyond studies of women work and family in terms of structural incompatibilities Garey challenges images of the exclusively work oriented or exclusively family oriented mother As women talk about their lives Garey focuses on the meanings of motherhood and of work that underlie their strategies for integrating employment and motherhood She replaces notions of how women balance work and family with a better understanding of how women integrate negotiate and weave together their identities as both workers and mothers Breaking new ground in the study of work and family *Weaving Work and Motherhood* offers new insights for those interested in sociology gender and women's studies social policy child care social welfare and health care *Research Perspectives on Work and the Transition to Motherhood* Christiane Spitzmueller, Russell A. Sheets, 2006 **Women, Work, and Families** Angela Hattery, 2001 Hattery's book is an important contribution to this literature The book is engaging and is well written I would recommend this book and encourage Hattery to continue examination of this construct Psychology of Women

Quarterly Women Work and Family Balancing and Weaving is a fascinating examination of the extraordinary juggling skills of working mothers who balance their obligations to both work and family Angela Hattery goes beyond a mere description of women's conflicts of interest and seeks to understand the decision making process through which they accomplish this balancing Through intensive interviews with 30 married women all with children under 2 years of age Hattery uncovers a remarkable range of ways in which these women weave together the complex strands of their lives The data in the volume are examined from a number of theoretical standpoints including structural theory motherhood theory and feminist theory A key variable that runs through the data is economic need which has an obvious effect on work patterns Women Work and Family will make a major contribution to family studies and will illuminate the difficult choices that women make within the family work context
