Welcome Letters For New Patients In Psychiatry:

Psychiatry, Mental Institutions, and the Mad in Apartheid South Africa Tiffany Fawn Jones, 2012-05-23 In the late 1970s South African mental institutions were plagued with scandals about human rights abuse and psychiatric practitioners were accused of being agents of the apartheid state Between 1939 and 1994 some psychiatric practitioners supported the mandate of the racist and heteropatriarchal government and most mental patients were treated abysmally However unlike studies worldwide that show that women homosexuals and minorities were institutionalized in far higher numbers than heterosexual men **Psychiatry Mental Institutions and the Mad in Apartheid South Africa** reveals how in South Africa per capita white heterosexual males made up the majority of patients in state institutions The book therefore challenges the monolithic and omnipotent view of the apartheid government and its mental health policy While not contesting the belief that human rights abuses occurred within South Africa's mental health system Tiffany Fawn Jones argues that the disparity among practitioners and the fluidity of their beliefs along with the disjointed mental health infrastructure diffused state control More importantly the book shows how patients were also to a limited extent able to challenge the constraints of their institutionalization This volume places the discussions of South Africa's mental institutions in an international context highlighting the role that international organizations such as the Church of Scientology and political events such as the gay rights movement and the Cold War also played in shaping mental health policy in South Africa **Seeking Asylum and Mental Health** Chris Maloney, Julia Nelki, Alison Summers, 2022-09-01 People seeking asylum face unique challenges and frequently experience mental health problems Effective support requires an understanding of their mental health needs in the broader context of their lives cultures and extreme experiences This book provides practical guidance for professionals and services working with people seeking asylum in mental health social care legal government managerial and commissioning roles With authors from a wide range of professional backgrounds the book is enriched by accounts from people with first hand experience of the asylum system itself It considers the challenges and dilemmas faced by all involved including clients clinicians and service planners with a wealth of practical information about how to assess and understand strengths and needs avoid inappropriate conclusions and discrimination consider treatment options and write records and reports The authors emphasise that effective support depends on reflection humanity and compassion The book is a must have resource for professionals working with those who have to seek asylum **Public Mental Health: Global Perspectives** Knifton, Lee, Quinn, Neil, 2013-03-01 This book will provide readers with an overview of the core knowledge and issues in public mental health and a guide for students and practitioners on the evidence and tools available to help them develop Public Mental Health programs that work in practice **The American Journal of Psychiatry**, 1923
