

The YZ80 has long been considered the world's premier motocross trainer. And this year, it's better than ever. To start with, it has an all new water-cooled engine with the Yamaha Energy Induction System (YEIS), torque induction, and CD Ignition. Water cooling prevents power loss from heat and keeps the engine running at peak power. It's one of the most powerful 80cc class engines ever and gives young riders an extra competitive edge. To match this high performance engine, the frame geometry has been changed, the progressive-type motocross suspension has sub-tank for extra damping, and the rear axle made bigger. In short, the best has just become a little better. Yamaha YZ80. A bike to build champions with.

Sub-tank over tank for extra damping and extra rider support.

Monocross suspension with sub-tank provides extra damping and extra rider support.

Larger axle to handle the extra power.

CD Ignition produces a hot, efficient spark without mechanical breaker points, maintaining performance and minimizing maintenance.

Developed for Yamaha racing bikes, YEIS improves low- and mid-range torque while reducing overall fuel consumption.

The new water-cooled 79cc engine puts out more power than ever.

Air-cooled front suspension with 225mm travel.
