Don't Send Him in Tomorrow Jarlath O'Brien, 2016-08-04 In *Don't Send Him in Tomorrow* Jarlath O'Brien shines a light on the marginalised disenfranchised and forgotten children of today's schools The percentage of children achieving the government's expected standard in benchmark tests is national news every year The progress that children with learning difficulties and SEN make is never discussed because it is not understood That is a problem The bone crushing infrastructure which professionals have to negotiate is a problem The fact that so many parents have to fight tooth and nail so that the needs of their children are met something the rest of us would consider a basic entitlement is a problem This book describes how the system can be improved if and when these marginalised children are given higher priority by the powers that be There is a widespread lack of understanding about special schools the work they do and the children they educate the sector is largely invisible Jarlath O'Brien has become increasingly frustrated by this and the varying quality of provision for children with learning difficulties and SEN in mainstream schools The successes of special schools and pupil referral units in Ofsted inspections are just not celebrated or analysed in the same way that mainstream schools are While mainstream schools have their hands tied by fears over progress measures There is a human cost to the accountability culture that reduces schooling

to data and judgements this is felt most profoundly by children with SEN and their families Jarlath shares some of the problems he s witnessed with inclusion and exclusion mainstream schools actively encouraging children with SEN to look elsewhere parents reporting their children have been formally or informally excluded from school and socially excluded by the parents of other children children asked to leave their mainstream schools because of their behaviour usually behaviour that is caused by their needs not being adequately addressed children who are in school but isolated from their peers If a child can t participate in activities or trips with the rest of the class or spends much of the day working one to one with a teaching assistant is this really inclusion The Pupil Premium has been established to ensure that children in receipt of free school meals are not disadvantaged why does something similar not exist for children with SEN Every health and wealth indicator that you could use to measure people with learning difficulties and special educational needs SEN reveals something alarming They die younger They work less They are more likely to live in poverty or end up in prison or face mental health difficulties They are much more likely to be excluded from school They are more likely to be bullied at school This has to end We all have to choose to commit to recognising that society as it is today is a difficult place for young people to thrive When you have autism or Down syndrome or any physical or learning difference it s even harder and the system as it stands isn t helping We need to acknowledge that this is not right that such a state of affairs must change and that we all have a part to play in making that change happen Jarlath offers suggestions for politicians Ofsted local authorities head teachers SENCOs teachers and teaching assistants about what they can do to make a difference For all politicians head teachers SENCOs teachers and parents

The End of the Innocence Lawrence R. Samuel,2007-10-01 From April 1964 to October 1965 some 52 million people from around the world flocked to the New York World s Fair an experience that lives on in the memory of many individuals and in America s collective consciousness Taking a perceptive look back at the last of the great world s fairs Samuel offers a vivid portrait of this seminal event and of the cultural climate that surrounded it He also counters critics assessments of the fair as the ugly duckling of global expositions Opening five months after President Kennedy s assassination the fair allowed millions to celebrate international fellowship while the conflict in Vietnam came to a boil This event was perhaps the last time so many from so far could gather to praise harmony while ignoring cruel realities on such a gargantuan scale This world s fair

glorified the postwar American dream of limitless optimism even as a counterculture of sex drugs and rock n roll came into being It could rightly be called the last gasp of that dream The End of the Innocence Samuel s work charts the fair from inception in 1959 to demolition in 1966 and provides a broad overview of the social and cultural dynamics that led to the birth of the event It also traces thematic aspects of the fair with its focus on science technology and the world of the future Accessible entertaining and informative the book is richly illustrated with contemporary photographs **Political**
