Neoliberalism Inequality and Authoritarianism Jon Kofas, 2024-09-03 This book exposes the inherent contradictions of neoliberalism The myth of limitless growth ignores the reality of resource constraints and fuels a global upward transfer of wealth Meanwhile a fractured global economy and intensifying class warfare chip away at neoliberalism's foundation As inequality spirals and social justice crumbles the model increasingly serves a privileged few at the expense of the majority This undermines the Enlightenment ideal of using liberal democracy to improve lives in the age of mass politics threatening neoliberalism's very survival

The New US Strategy towards Asia William T Tow, Douglas Stuart, 2014-12-17

Barack Obama's rebalancing or pivot strategy intended to demonstrate continued US commitment to the Asia Pacific region in a variety of military economic and diplomatic contexts was launched with much fanfare in 2011 Implicit in the new

strategy is both a focus on China engagement with and containment of and a heavy reliance by the United States on its existing friends and allies in the region in order to implement its strategy This book explores the impact of the new strategy on America s regional friends and allies It shows how these governments are working with Washington to advance and protect their distinct national interests while at the same time avoiding any direct confrontation with China It also addresses the reasons why many of these regional actors harbour concerns about the ability of the US to sustain the pivot strategy in the long run Overall the book illustrates the deep complexities of the United States exercise of power and influence in the region

The Asia-Pacific Gary Klintworth,1991 *Asia Pacific Countries and the US Rebalancing Strategy* David W.F. Huang,2016-06-29 This book examines the success of the US rebalancing or pivot strategy towards Asia placing the US pivot in a historical context while highlighting its policy content and management dilemmas Further the contributors discuss the challenges and opportunities that each regional state confronts in responding to the US rebalancing strategy In 2011 President Barack Obama laid out the framework for a strategic pivot of US policy towards the Asia Pacific region Writers in this volume focus specifically on Asian perception of the strategy Among the topics they explore are China s desire to be seen as equal to the US while maintaining foreign policy initiatives independent of the US strategic rebalance the strengthening of Japan s alliance with the US through its security policies the use of US China competition by South Korea to negotiate its influence in the region and Australia s embrace of the strategy as a result of foreign direct investment that provides economic benefits to the country

By More Than Providence Michael J. Green,2017-03-21 Soon after the American Revolution certain of the founders began to recognize the strategic significance of Asia and the Pacific and the vast material and cultural resources at stake there Over the coming generations the United States continued to ask how best to expand trade with the region and whether to partner with China at the center of the continent or Japan looking toward the Pacific Where should the United States draw its defensive line and how should it export democratic principles In a history that spans the eighteenth century to the present Michael J Green follows the development of U S strategic thinking toward East Asia identifying recurring themes in American statecraft that reflect the nation s political philosophy and material realities Drawing on archives interviews and his own experience in the Pentagon and White House Green finds one overarching concern driving U S policy toward East Asia a fear that a rival power might use the Pacific to isolate and threaten the United States and prevent the ocean from becoming a conduit for the westward free flow of trade values and forward defense By *More Than Providence* works through these problems from the perspective of history s major strategists and statesmen from Thomas Jefferson to Alfred Thayer Mahan and Henry Kissinger It records the fate of their ideas as they collided with the realities of the Far East and adds clarity to America s stakes in the region especially when compared with those of Europe and the Middle East

Asia-Pacific David Lai,2013 Dr David Lai provides a timely assessment of the geostrategic significance

of Asia Pacific His monograph is also a thought provoking analysis of the U S strategic shift toward the region and its implications Dr Lai judiciously offers the following key points First Asia Pacific which covers China Northeast Asia and Southeast Asia is a region with complex currents On the one hand there is an unabated region wide drive for economic development that has been pushing Asia Pacific forward for decades On the other this region is troubled with aside from many other conflicts unsettled maritime disputes that have the potential to trigger wars between and among Asia Pacific nations Second on top of these mixed currents China and the United States compete intensely over a wide range of vital interests in this region For better or for worse the U S China relationship is becoming a defining factor in the relations among the Asia Pacific nations Third the U S strategic shift toward Asia Pacific is as President Obama puts it not a choice but a necessity Although conflicts elsewhere especially the ones in the Middle East continue to draw U S attention and consume U S foreign policy resources the United States is turning its focus toward China and Asia Pacific Fourth in the mid 2000s the United States and China made an unprecedented strategic goodwill exchange and agreed to blaze a new path out of the tragedy that often attends great power transition Fifth at this time of U S strategic reorientation and military rebalancing toward Asia Pacific the most dangerous consideration is that Asia Pacific nations having disputes with China can misread U S strategic intentions and overplay the U S card to pursue their territorial interests and challenge China Finally territorial dispute is becoming an urgent issue in the Asia Pacific
