Whose Development Human Rights Abuses In Sierra Leones Mining Boom:

Whose Development? Rona Peligal, 2014 This 96 page report documents how the government and London based African Minerals Limited forcibly relocated hundreds of families from verdant slopes to a flat arid area in Tonkolili District As a result residents lost their ability to cultivate crops and engage in income generating activities that once sustained them Police carried out a bloody crackdown in the town of Bumbuna in April 2012 to quell a protest by workers who went on strike after being barred from forming a union of their own choosing Publisher's website [Grid-locked African Economic Sovereignty](#)

Warikandwa, Tapiwa Victor, Nhemachena, Artwell, 2019-02-06 The emergent so called Fourth Industrial Revolution is regarded by some as a panacea for bringing about development to Africans This book dismisses this flawed reasoning Surfacing how investors are actually looting and plundering Africa how the industrial internet of things the gig economies digital economies and cryptocurrencies breach African political and economic sovereignty the book pioneers what can be called anticipatory economics which anticipate the future of economies It is argued that the future of Africans does not necessarily require degrowth postgrowth postdevelopment postcapitalism or sharing solidarity economies it requires attention to age old questions about African ownership and control of their resources Investors have to invest in ensuring that Africans own and control their resources Further it is pointed out that the historical imperial structural creation of forced labour is increasingly morphing into what we call the structural creation of forced leisure which is no less lethal for Africans Because both the structural creation of forced labour and the structural creation of forced leisure are undergirded by transnational neo imperial plunder theft robbery looting and dispossession of Africans this book goes beyond the simplistic arguments that Euro America developed due to the industrial revolutions **Governance, Conflict, and Natural**

Resources in Africa Hany Gamil Besada, 2021-04-22 A country's abundant natural resources may serve as a curse or a blessing with the outcome often dependent on prevailing governance structures and experience managing these assets Despite natural resource advantages many African countries have failed to transform their enormous economic potential and wealth into tangible benefits such as sustainable socio economic development human security or peace Governance Conflict and Natural Resources in Africa reevaluates the role that foreign state owned and private sector actors play in resource rich states whether stable post conflict or fragile in sub Saharan Africa Through research and an analysis of in depth interviews with local stakeholders in Ghana Sierra Leone and Ethiopia Hany Besada explains how foreign state owned and private sector corporations have contributed to economic growth at both the national and local levels in different resource rich countries This book reveals the unique challenges and opportunities created by these investors demonstrating that new policies in business practices and operations have the potential to generate sustainable development and positive economic transformation Governance Conflict and Natural Resources in Africa puts forward a novel framework for understanding the role of private economic actors in extractive industries in Africa and sheds new light on foreign private sector contributions

to capacity building and economic development Domination Through Law Mohamed Sesay, 2021-01-29 Winner of the 2021 Lee Ann Fujii Book Award International Studies Association The positive effects of rule of law norms and institutions are often assumed in the fields of global governance and international development with empirical work focusing more on the challenges of using law to engineer social change abroad Questioning this assumption the book contends that purportedly good rule of law standards do not always deliver benign benefits but rather often have negative consequences that harm the very local constituents which rule of law promoters promise to help In particular the book argues that rule of law promotion in post colonial societies reinforces socioeconomic and political inequality which disproportionately favors dominant actors who have the wealth education and influence to navigate the state legal system In addition to an historical account of legal development in settler colonial environments this argument is also drawn from a comparative study which focuses on the UK supported justice sector development programs in Sierra Leone and the US funded rule of law projects in Liberia

Environmental Violence Richard A. Marcantonio, 2022-07-28 The book develops the concept of environmental violence as a potent tool to identify track reduce environmental threats to humanity Intolerance Robert E. Tully, Bruce Chilton, 2017-07-14 Aristotle accurately characterized humans as political animals Whether through birth or from choice people naturally cluster into groups for protection advancement and the pursuit of well being But Aristotle s description does not hint at the powerful binary tension within this human tendency Leaders enhance a social group s sense of identity by appealing to the members commitments and shared traditions to their hopes strengths sacrifices and fears Often however they cultivate not only an awareness of difference but even a sense of superiority since for every social group there are those outsider the them Maintaining a group s solidarity can too easily lead to the righteousness of intolerance towards those who are excluded The reinforcement of group identity in this way runs so deep in human nature that holding up a mirror to ourselves inevitably reveals a split image the people we want to see and the people we re glad we re not Intolerance Political Animals and Their Prey presents stark examples of how the us have treated the them The papers in this volume hold up various unflattering mirrors of intolerance from the areas of History Law Philosophy Political Science and Religion The authors of these scholarly studies do not condemn Rather their research compels us to look at ourselves as the political animals we are Intolerance Political Animals and Their Prey is the product of a year long multi disciplinary collaboration between faculty members of Bard College and the United States Military Academy at West Point The project involved parallel seminar courses at both institutions along with Joint Sessions all focused on the central theme of intolerance and culminated in a three day academic Conference at Bard in the Spring of 2015 This volume inaugurates a new series being published by Hamilton Books under the general title Dialogues on Social Issues Bard College and West Point *Africa's Blessing, Africa's Curse* , 2004 **Global Studies** F. Jeffress Ramsey, 1997 **Africa** Jeff Ramsay, F. Jeffress Ramsay, 1999 This text provides background essays and statistics for the countries of North Africa Central Africa East Africa South Africa and West Africa

with a regional essay showing the connection of North Africa to the rest of the continent **Africa Confidential** ,2006

Culture and Conflicts in Sierra Leone Mining Fenda Akiwumi,2024-03-05 In Culture and Conflicts in Sierra Leone Mining Strangers Aliens Spirits the author uses Sierra Leone as a case study to contribute to the debates on the causes and

nature of mineral resource conflicts in Africa Unlike many works that focus on the political economy and political ecology of large scale diamond mining conflicts this book s goal is to add to the limited literature on the persistent discord in mining areas In so doing the book integrates cultural conflict dimensions in analyzing the mineral commodity chain primarily the clash between the centuries old customary landlord stranger land governance institution and state mining laws with colonial vestiges It shows that these cultural conflicts challenge the effective development of the mining sector including establishing artisanal mining as a viable complementary livelihood to farming for rural populations
