Whytes Dream The Keepers 3:

John McGahern John Singleton, 2023-11-17 John McGahern 1934 2006 believed that fiction could act as a window on the world Such windows however frame our fields of vision alter and shape our perspectives Far from being static the artist s perspective must continually evolve This book provides a literary analysis of John McGahern s artistic and poetic vision his ways of looking examining the shifting focus of this vision how and why it develops what effects such developments have on the work s forms and how these forms evolve at what times and in response to what stimuli This volume demonstrates that such developments mirror an analogous social expansion during the latter half of the twentieth century and argues that McGahern s literary spaces relate to his efforts to realise a more accommodating form to envelop the structureless society While the number of critical studies on McGahern has increased markedly in recent years research still tends to fall into the well established camps of social realism or literary aestheticism This text aims to explore the common ground between the material context and social worlds of each work and the hermeneutics of a traditional literary investigation It traverses such divides through close readings of McGahern s work with attention to the topopoetical production of images of the house the home and the family unit The book ultimately shows how attention to McGahern s literary spaces provides a greater understanding of the aesthetic vision and form of each novel and allows us to understand those aspects relative to the social cultural and political undercurrents of the works individually and collectively **Stock-keeper, and Fanciers Chronicle**
