With Respect To Readers Dimensions Of Literary Response:

With respect to readers : dimensions of literary response Walter Jacob Slatoff, The Nature of Literary Response Clark McPhail, Norman Holland, 2017-07-12 In a rare fusion of literary sensibility with psychological research Norman N Holland brings to light important data showing how personality in the fullest sense of character development and identity affects the way in which we read and interpret literature This book will show that readers respond to literature in terms of their own lifestyle character personality or identity By such terms psychoanalytic writers mean an individual s characteristic way of dealing with the demands of outer and inner reality Each new experience develops the style while the pre existing style shapes each new experience The sub title of this book Five Readers Reading reflects the fact that the author a distinguished literary critic worked with five student readers using a battery of psychological tests and extensive interviews to study the ways they reacted to classic short stories by Faulkner Hemingway and others Combining his own interpretation of the stories with his understanding of the readers and their reactions Holland derives four principles that inform literary response He then goes on to show how these principles apply not just to literary response but to the way personality shapes any experience The book carries Holland s previous studies of creation and responsive recreation forward to a major theoretical statement He rejects the artificial idea that one must think of a text or other event as separate from its perceivers illustrating the dynamics by which perceiver and perceived mutually create an experience For critics and students of the psychology of human behavior this is challenging and seminal reading

Reader Response in Secondary and College Classrooms

Nicholas J. Karolides, 2013-04-15 This text based on Louise M Rosenblatt s transactional model of literature focuses on the application of transactional reader response theory in the classroom It grows from frequent requests from secondary school and college teachers for teaching suggestions on how to put theory into practice This is not a What should I do on Monday cookbook but an expression of the practice of theory in college and secondary school classrooms The chapters portray a spectrum of strategies including biopoems expressive and imaginative writing journal writing readers theater role playing and unsent letters using as examples individual works from several genres Recognizing that teachers who may have been trained in other theories and methodologies may be hesitant about their quite different role and expectations in the reader centered classroom the authors provide stepping stones to develop readiness and confidence suggestions and insights to ease the transition to the transactional model of teaching and learning Pedagogical features An explanatory introduction to each section defines its orientation and describes the content and direction of the chapters it contains Invitations elicit engagement of readers with concepts attitudes or strategies presented in the chapters they invite readers as individuals or members of a small group to consider ideas or to practice a strategy among other activities in order to enhance understandings A glossary defines key concepts and strategies discussed in the text A bibliography provides an extensive list of resources books and journal articles both theoretical and applied New in the second edition Six new chapters three deal

with the roles of film as literature in the English classroom and three with enhancing multicultural understandings Updates and revisions to several chapters that appeared in the first edition Invitations new in this edition have been added to focus and expand readers thinking

Novels, Novelists, and Readers Mary F. Rogers,1991-07-03 Focusing on British and American novels Rogers takes a sociological look at the business of literature the book industry and the experiences of novelists and readers Viewing the novel as a vehicle of cultural meaning the author shows how the literary canon overlooks substantial similarities among novels in favor of restrictive codes based on social as well as literary considerations She emphasizes the kinship between the social sciences and humanities in her analysis by reinvigorating affection for the novel and also establishing its rich cultural significance

Key Concepts in Literary Theory Julian Wolfreys,2013-12-11 Key Concepts in Literary Theory presents the student of literary and critical studies with a broad range of accessible precise and authoritative definitions of the most significant terms and concepts currently used in psychoanalytic poststructuralist Marxist feminist and postcolonial literary studies The volume also provides clear and useful discussions of the main areas of literary critical and cultural theory supported by bibliographies and an expanded chronology of major thinkers Accompanying the chronology are short biographies of major works by each critic or theorist The third edition of this reliable reference work is both revised and expanded including more than 100 additional terms and concepts defined newly defined terms include keywords from the social sciences cultural studies and psychoanalysis and the addition of a broader selection of classical rhetorical terms an expanded chronology with additional entries and a broader historical and cultural range expanded bibliographies including key texts by major critics

On Deconstruction Jonathan D. Culler,1982 With an emphasis on readers and reading the author considers deconstruction in terms of the questions raised by psychoanalytic feminist and reader response criticism As a result this book is both an authoritative synthesis of Derrida s thought and an analysis of the often problematic relation between his philosophical writings and the work of literary critics

The Art of Listening R. S. White,2015-10-23 Originally published in 1986 This collection of essays is unified by one leading idea that the active and creative abilities of listeners and readers deserve as much attention as the skills of speakers and writers It is shown that hearers far from being passive recipients in the communicative process are in fact active in selecting interpreting and creating from the disparate signals they receive Equally readers are involved in creating individual patterns of significance from a text In presenting this argument some essays deal with the importance of gender considerations some with special modes of writing such as the private diary and literary translations and others with the more familiar fields of poetry and drama In the sphere of popular music distinctions such as folk and pop indicate special problems in assessing the authenticity of a listener s response By concentrating on active listening the collection develops and illustrates the conviction that there are fundamental premises underlying the various disciplines under review the analysis of which makes for a fuller understanding of communication in all its forms

The Postmodern Bible George Aichele,Fred W. Burnett,Robert M.

Fowler, David Job ling, Tina Pippin, Wilhelm Wuellner, Bible and Culture Collective, 1995-01-01 The burgeoning use of modern literary theory and cultural criticism in recent biblical studies has led to stimulating but often bewildering new readings of the Bible This book argued from a perspective shaped by postmodernism is at once an accessible guide to and an engagement with various methods theories and critical practices transforming biblical scholarship today Written by a collective of cutting edge scholars with each page the work of multiple hands The Postmodern Bible deliberately breaks with the individualist model of authorship that has traditionally dominated scholarship in the humanities and is itself an illustration of the postmodern transformation of biblical studies for which it argues The book introduces illustrates and critiques seven prominent strategies of reading Several of these interpretive strategies rhetorical criticism structuralism and narratology reader response criticism and feminist criticism have been instrumental in the transformation of biblical studies up to now Many feminist and womanist criticism ideological criticism poststructuralism and psychoanalytic criticism hold promise for the continued transformation of these studies in the future Focusing on readings from both the Hebrew Bible and the New Testament this volume illuminates the current multidisciplinary debates emerging from postmodernism by exposing the still highly contested epistemological political and ethical positions in the field of biblical studies *Herod the Fox* John A. Darr, 1998-01-01 In foregrounding the themes of witnessing seeing and hearing and recognition Luke urges readers to reflect on their own hearing reading of his story to become certain kinds of readers and to read in particular ways So the need for a reader oriented methodology in interpreting Luke Acts is evident But what is the best theory to deploy Charting a path through the thickets of modern literary theory Darr develops a new reader oriented model insisting that the original extratext the repertoire of literary and social conventions of Luke Acts and not simply the text itself should be taken into account in any critical evaluation of how this story works To demonstrate this new hermeneutical model Darr undertakes an extensive study of Lukan characterization and especially his portrayal of Herod the Tetrarch *Resources in education*, 1986-09
