Woman Genius Mary Hunter Austin:

A Woman of Genius Mary Hunter Austin, 1917-01-01 It is strange that I can never think of writing any account of my life without thinking of Pauline Mills and wondering what she will say of it Pauline is rather given to reading the autobiographies of distinguished people unless she has left off since I disappointed her and finding in them new persuasions of the fundamental lightness of her scheme of things I recall very well how when I was having the bad time of my life there in Chicago she would abound in consoling instances from one then appearing in the monthly magazines skidding over the obvious derivation of the biographer's son from the Lord Knows Who except that it wasn't from the man to whom she was legally married to fix on the foolish detail of the child's tempers and woolly lambs as the advertisement of that true womanliness which Pauline loves to pluck from every feminine bush There was also a great deal in that story about a certain other celebrity for her relations to whom the writer was blackballed in a club of which I afterward became a member and I think it was the things Pauline said about one of the rewards of genius being the privilege of association with such transcendent personalities on a footing which permitted one to call them by their first names in one's reminiscences that gave me the notion of writing this book It has struck me as humorous to a degree that in this sort of writing the really important things are usually left out I thought then of writing the life of an accomplished woman not so much of the accomplishment as of the woman and I have never been able to make a start at it without thinking of Pauline Mills and that curious social warp which obligates us most to impeach the validity of a woman's opinion at the points where it is most supported by experience From the earliest I have been rendered highly suspicious of the social estimate of women by the general social conspiracy against her telling the truth about herself But in fact I do not think Mrs Mills will read my book Henry will read it first at his office and tell her that he'd rather she shouldn't for Henry has been so successfully Paulined that it is quite sufficient for any statement of life to lie outside his wife's accepted bias to stamp it with insidious impropriety There is at times something almost heroic in the resolution with which women like Pauline Mills defend themselves from whatever might shift the centres of their complacency

volume is a comprehensive and transatlantic literary study of women's nineteenth and twentieth century fiction. Firstly it introduces and explores the concept of women's affective labour and examines literary representations of this work in British and American fiction written by women between 1848 and 1915. Secondly it revives largely ignored texts by the scribbling women of Britain and America such as Mary Elizabeth Braddon, Elizabeth Stuart Phelps, Mona Caird and Mary Hunter Austin and rereads established authors such as Elizabeth Gaskell, Kate Chopin and Edith Wharton to demonstrate how all these works provide valuable insights into women's lives in the nineteenth and early twentieth centuries. Finally, by adopting the lens of affective labour, the study explores the ways in which women were portrayed as striving for self-fulfilment through forms of emotional, mental and creative endeavours that have not always been fully appreciated as work in critical accounts of nineteenth and twentieth century fiction.

The Naturewoman Upton Sinclair, 2021-04-25

In *The Naturewoman* Upton Sinclair intricately weaves a narrative that explores the themes of human connection to nature, societal norms and the quest for authenticity in a rapidly industrializing world. The book, published in 1926, employs a rich descriptive literary style reminiscent of Sinclair's earlier works, blending sociopolitical commentary with a vividly drawn backdrop of rural America. This pastoral tale contrasts sharply with the industrialized landscapes often depicted in Sinclair's more famous novels, reflecting a profound ambivalence toward modernity while heralding the triumph of human dignity and natural beauty over mechanization.

Upton Sinclair, a renowned American author and social reformer, is perhaps best known for his investigative works like *The Jungle*. His deep-seated commitment to social justice and a critique of capitalism often informs his literary endeavors. *The Naturewoman* arose from Sinclair's experiences with the natural world and his desire to express the significance of a simpler, more authentic life as a counterpoint to the dehumanizing effects of industrial society, a theme resonant in his broader oeuvre.

This novel is highly recommended for readers seeking to delve into the early 20th-century American experience, offering a profound reflection on human existence and the environment. Sinclair's poignant prose and argument for a return to nature make *The Naturewoman* not just a story but a call to reconnect with one's roots in a world that often prioritizes progress over preservation.
