Women And Politics The Pursuit Of Equality:

Women and Politics Lynne Ford, 2018-05-15 *Women and Politics* is a comprehensive examination of women's use of politics in pursuit of gender equality. How can demands for gender equality be reconciled with sex differences? Resolving this paradoxical question has proceeded along two paths: the legal equality doctrine which emphasizes gender neutrality and the fairness doctrine which recognizes differences between men and women. The text's clear analysis and presentation of theory and history helps students to think critically about the difficulties faced by women in politics and about how public policies in education, labour, and the economy and family and fertility impact gender equality. The fully revised fourth edition explores new critical perspectives, recent political events and current challenges to gender equality including the 2016 presidential election and Hillary Clinton's candidacy, the fight for equal pay and paid leave and the debate over reproductive rights and campus sexual assault. It also includes current scholarship on the intersections of race, class and gender and expanded coverage of minority women, women in the military and conservative women. This text and its two-path framework is essential to understanding women's pursuit of equality via the political system.

Women and Politics Lynne E. Ford, 2006 *Women and Politics* examines the pursuit of gender equality from two viewpoints: the legal equality doctrine which emphasizes gender neutrality and the fairness doctrine which recognizes differences between men and women. In-depth analysis and clear presentation of theory and history helps students to think critically about gender and about the challenges faced by women in the past and present. Extensive coverage of diversity among women and consistent attention to the intersections of race, class and gender are integral to the text's main theme. Up-to-date content includes current statistics on women candidates and office holders, new research findings, recent policy changes, Supreme Court rulings and state laws that impact women's lives and an examination of the ways the climate for women in politics has changed as a result of September 11 and the focus on terror, foreign policy and the military. Chapter 5, *Women as Political Actors*, is a unique consideration of women as both insiders and outsiders in the political process. Policy chapters examine education, economics and fertility and family issues in regard to the text's main theme of gender equality. Controversies of Equality boxes promote critical thinking and discussion of key issues, cases and controversies relating to gender equality.
