Zimbabwe's Casino Economy Extraordinary Measures For Extraordinary Challenges:

Zimbabwe's Casino Economy Gideon Gono, 2008 This is the remarkable first hand account of the tenure of the Governor of the Reserve Bank of Zimbabwe from December 2003 until November 2008 A close colleague of President Robert Mugabe he explains why he cherishes that opportunity to serve him and his country A number of beliefs underpin his account of his tenure every nation seeks development in terms of economic growth equity social cohesion political stability democracy and human rights as well as sovereignty or national autonomy in international affairs and his account is therefore in a development context the object of public policy He contends that Zimbabweans have been denied the pursuit of development which is in a precarious state because of illegal economic sanctions imposed on Zimbabwe by Britain and its allies who have sought regime change in the country and because of serious gaps and weaknesses in the policy response to the sanctions by both the government and the business community in our country The result of political turmoil and market failure is that order and stability have been compromised and the Zimbabwe economy is now drive by a casino ethic with devastating effects He outlines the Reserve bank response to the challenges and concludes by mapping a socio economic roadmap for reform and recovery After an introductory bio professional note the chapters cover The Invisible Hand s Dirty Politics The Market Economy as a Casino Economy Corrupting Banking and the Stock Exchange Illegal Sanctions as Terrorism When Things Fell Apart Taking a New Direction Tackling the Casino Economy Beyond the Casino Economy

Zimbabwe: The Link Between Politics and the Economy Godfrey Kanyenze, 2022-03-31 In this accessible and authoritative book Godfrey Kanyenze provides a comprehensive and far reaching analysis of the socio economic development in Zimbabwe in light of the expanding authoritarianism and the ongoing destruction of democratic institutions during the four decades after independence Kanyenze describes the various phases of the socio economic development starting with 1980 when the people of Zimbabwe saw their hard won independence and new democracy as a

promise for a better life for all Kanyenze highlights how by dismantling all barriers of economic and legal restraint and that despite being necessary The land reform programme put the political and financial interests of the elite before those of the people which continues to this day Kanyenze reveals the governmental attacks on civil society and notes how economic policy was not even part of an authoritarian bargain an implicit arrangement between ruling elites and citizens whereby citizens relinquish political freedom in exchange for public goods And he concludes this analysis with a current update of Zimbabwe today where citizens have nothing neither political freedom nor public goods This impressive and gripping account of an authoritarian capitalist system and a country in decline is a must read for students researchers policymakers and those who want to better understand how politics and the economy interests conflicts and power work together **Restoring the**

Educational Dream. Rethinking Educational Transformation in Zimbabwe Shizha, Edward, 2013-12-07 The role of education in human well being and social development cannot be overestimated After a number of highly commendable policies on education in the first decade of independence the education system in Zimbabwe has taken a tumble that needs both examining and rectifying This volume analyses the challenges facing the education system in Zimbabwe and explores and scrutinises theoretical and practical possibilities for restoring the educational dream that was initiated at independence in 1980 The book is targeted at academics scholars college and university students policy makers and other stakeholders and advocates a multi pronged approach that must involve all stakeholders if educational retransformation reconstruction and restoration are to be achieved The authors provide a range of recommendations for a project that would restore the educational dream in Zimbabwe *Zimbos Never Die?*, 2023-05-08 This book seeks to explore how the Zimbabwean society and its institutions have survived if not succumbed to continuous economic crises in the country From the 1990s Zimbabwe experienced a sustained economic decline challenged by both internal and external strains Coupled with internal mis

governance and corruption the nation plunged into a political and economic crisis which culminated in the second highest world inflation rate for an economy that is not at war In the face of the harsh and continuously deteriorating economic environments Zimbabweans as individuals as well as part of institutions adopted various strategies to negotiate and survive the economic scourge Contributors include Wellington Bamu Nathaniel Chimhete Anusa Daimon Innocent Dande Sylvester Dombo Tinotenda Dube Rudo Gaidzanwa Tafara Evelyn Kombora Ushehweu Kufakurinani Bernard Kusena Eric Kushinga Makombe Albert Makochekanwa Blessed Masawi Ivo Mhike Joseph P Mtisi Joseph Mujere Wesley Mwatwara Pius S Nyambara Tinashe Nyamunda Mark Nyandoro Takesure Taringana and Nicola Yon Mutimurefu Relationality and

Resilience in a Not So Relational World? Artwell Nhemachena, 2017-03-08 This book critically examines the relevance of the increasingly popular theories on relationality by interfacing those theories with the African Shona modes of engagement known as chivanhu often erroneously narrowly translated as tradition In other words the book takes seriously concerns by African scholars that much of the theories that have been applied in Africa do not speak to relevance and faithfulness to the

continent Situated in a recent Zimbabwean context marked by multiple crises producing multiple forms of violence and want the book examines the relevance of relational ontologies and epistemologies to the everyday life modes of engagements by villagers in a selected district The book unflinchingly surfaces the strengths and weaknesses of popular theories while at the same time underlining the exigencies of theorising from Africa using African data as the millstones By meticulously and painstakingly unpacking pertinent issues the book provides unparalleled intellectual grit for the contemporary and increasingly popular discourses on de coloniality and resilience in relation to the African peoples and their often deliberately contested environments past present and future In other words the book loudly sounds the bells for the battles to decolonise and transform Africa on Africas own terms This is a book that would be extremely useful to scholars activists theorists policy makers and implementers as well as researchers interested not only in Africas future trajectory but also in the simultaneities of temporalities and worlds that were sadly overshadowed by colonial epistemologies and ontologies for the past centuries

Zimbabwe@40 Lloyd Sachikonye, David Kaulemu, 2021-05-17 Zimbabwe 40 is a celebration of the country s four decades of independence and statehood Forty years is a relatively short period in a nation s life but it is a formative period what lessons can be learnt from the successes and failures challenges and opportunities of the last 40 years What should be avoided in the next 40 Lloyd Sachikonye and David Kaulemu have assembled a distinguished team of scholars to address these questions and the book focuses on issues that characterise the country s development trajectory the linkage between values and institutions defects in its democracy the curse of mineral and agricultural endowment the impact of migration and the social exclusion of women and young people The book is written from a depth of commitment to a just peaceful and prosperous Zimbabwe and represents a work in progress reflecting the continuing research evaluation and dialogue that each of the authors is engaged in and signalling the nature and direction of future such work As the editors conclude None of the chapters are pessimistic nor are they negative about the country They are realistic about the gravity of the historical moment the nation faces and the high moral political and economic mountains we must climb before we can see the Promised Land Yet they are full of hope they are convinced that we have not come to the end of history **National Healing,**

Integration and Reconciliation in Zimbabwe Ezra Chitando, 2019-12-06 This book brings together scholars from diverse backgrounds to provide interdisciplinary perspectives on national healing integration and reconciliation in Zimbabwe Taking into account the complex nature of healing across moral political economic cultural psychological and spiritual dimensions of communities and the nation the chapters discuss approaches disparities tensions and solutions to healing and reconciliation within a multidisciplinary framework Arguing that Zimbabwe s development agenda is severely compromised by the dominance of violence and militancy the contributors analyse the challenges possibilities and opportunities for national healing This book will be of interest to scholars of African studies conflict and reconciliation and development studies

War Veterans in Zimbabwe's Revolution Zvakanyorwa Wilbert Sadomba, 2011 An insider s view of the land issue and

farm invasions in Zimbabwe this book gives a different perspective than is normally heard revealing much about the tensions within Zimbabwean society and between the war veterans and the ruling party **The African Book Publishing Record**, 2009 **Zimbabwe** Suzanne Dansereau, Mario Zamponi, 2005 The two articles are revised versions of papers presented at the end of May 2004 to a Zimbabwe Conference at the Nordic Africa Institute which was co organized by the project Liberation and Democracy in Southern Africa LiDeSA They highlight current socio economic aspects of Zimbabwean society By doing so they raise relevant issues yet ones that have tended to be neglected given the almost exclusive concentration on political events While this is understandable the articles fill the gap in our knowledge and add insights into important sectors of society These include information on the Zimbabwean economy and the present constraints of the decline which together help us to understand the structural legacy that any future government will have to deal with What is more the elections in Zimbabwe in 2005 provide an ideal moment to discuss such matters This Discussion Paper will thereby make a substantive contribution to the analysis of the overall picture in Zimbabwe
