A History of the Harlem Renaissance Rachel Farebrother,Miriam Thaggert,2021-02-04 The Harlem Renaissance was the most influential single movement in African American literary history The movement laid the groundwork for subsequent African American literature and had an enormous impact on later black literature world wide In its attention to a wide range of genres and forms from the roman clef and the bildungsroman to dance and book illustrations this book seeks to encapsulate and analyze the eclecticism of Harlem Renaissance cultural expression It aims to re frame conventional ideas of the New Negro movement by presenting new readings of well studied authors such as Zora Neale Hurston and Langston Hughes alongside analysis of topics authors and artists that deserve fuller treatment An authoritative collection on the major writers and issues of the period A History of the Harlem Renaissance takes stock of nearly a hundred years of scholarship and considers what the future augurs for the study of the New Negro American Women's Regionalist Fiction Monika Elbert,Rita Bode,2021-01-04 American Women s Regionalist Fiction Mapping the Gothic seeks to redress the monolithic vision of American Gothic by analyzing the various sectional or regional attempts to Gothicize what is most claustrophobic or peculiar about local history Since women writers were often relegated to inferior status it is especially compelling to look at women from the Gothic perspective The regionalist Gothic develops along the line of difference and not unity thus emphasizing regional peculiarities or a sense of superiority in terms of regional history natural landscapes immigrant customs folk tales or idiosyncratic ways The essays study the uncanny or the haunting quality of the commonplace as Hawthorne would have it in his introduction to The House of the Seven Gables in regionalist Gothic fiction by a wide range of women writers between ca 1850 and 1930 This collection seeks to examine how if the regionalist perspective is small limited and stultifying and leads to Gothic moments or whether the intersection between local and national leads to a clash that is jarring and Gothic in nature **The Geographies of African American Short Fiction** Kenton Rambsy,2022-03-25

Perhaps the brevity of short fiction accounts for the relatively scant attention devoted to it by scholars who have historically concentrated on longer prose narratives The Geographies of African American Short Fiction seeks to fill this gap by analyzing the ways African American short story writers plotted a diverse range of characters across multiple locations small towns a famous metropolis city sidewalks a rural wooded area apartment buildings a pond a general store a prison and more In the

process these writers highlighted the extents to which places and spaces shaped or situated racial representations Presenting African American short story writers as cultural cartographers author Kenton Rambsy documents the variety of geographical references within their short stories to show how these authors make cultural spaces integral to their artwork and inscribe their stories with layered and resonant social histories The history of these short stories also documents the circulation of compositions across dozens of literary collections for nearly a century Anthology editors solidified the significance of a core group of short story authors including James Baldwin Toni Cade Bambara Charles Chesnutt Ralph Ellison Zora Neale Hurston and Richard Wright Using quantitative information and an extensive literary dataset The Geographies of African American Short Fiction explores how editorial practices shaped the canon of African American short fiction
