Zur Wohnungsfrage Friedrich Engels:

200 Years of Friedrich Engels Jürgen Georg Backhaus, Günther Chaloupek, Hans A. Frambach, 2022-10-05 This edited volume discusses the life and scholarship of Friedrich Engels Written to commemorate the two hundred year anniversary of Engels birth the contributions take a look into his research from a variety of viewpoints trace the influence of his predecessors and critically evaluate his place within 19th century scholarship In addition specific topics are taken up such as his mis assessment of American capitalism his influence on the Italian labor movement the thematization of social problems and the relevance of his thought in a global economy Providing a fresh look at the co founder of scientific socialism this volume will be of interest to researchers and students of contemporary political social and economic systems the history of economic thought and political history Structure, Agency and Theory Ib Gram-Jensen, 2021-04-20 Structure Agency and Theory challenges common readings of Marx and Engels historical materialism and argues the necessity of abandoning their conception of the dialectic of forces and relations of production as the motive power of historical development and transformations because of its doubtful validity and deterministic implications Instead another fundamental conception in historical materialism the interaction between social circumstances and agency as the motive power of history is accentuated with an emphasis on agents experiences as a causal factor arguing its potential in terms of historical explanation and attempting to spell out some of its strategic implications for revolutionary socialism Out of Place John B. Lyon, 2016-11-17 In late nineteenth century Germany the onset of modernity transformed how people experienced place In response to increased industrialization and urbanization the expansion of international capitalism and the extension of railway and other travel networks the sense of being connected to a specific place gave way to an unsettling sense of displacement Out of Place analyzes the works of three major representatives of German Realism Wilhelm Raabe Theodor Fontane and Gottfried Keller within this historical context It situates the perceived loss of place evident in their texts within the contemporary discourse of housing and urban reform but also views such discourse through the lens of twentieth century theories of place Informed by both phenomenological Heidegger and Casey as well as Marxist Deleuze Guattari and Benjamin approaches to place John B Lyon highlights the struggle to address issues of place and space that reappear today in debates about environmentalism transnationalism globalization and regionalism *Catalog of Foreign Books & Microfilms in the Possession of the Library of the Faculty of Economics, the University of Tokyo* Tōkyō Daigaku.
