Data-Driven Decision Making for Long-Term Business Success Singh, Sonia, Rajest, S. Suman, Hadoussa, Slim, Obaid, Ahmed J., Regin, R., 2023-12-21. In today's academic environment the challenge of ensuring lasting commercial and economic success for organizations has become more daunting than ever before. The relentless surge in data driven decision making based on innovative technologies such as blockchain IoT and AI has created a digital frontier filled with complexity. Maintaining a healthy firm that can continually provide innovative products and services to the public while fueling economic growth has become a formidable puzzle. Moreover this digital transformation has ushered in new risks from pervasive cybersecurity threats to the ethical challenges surrounding artificial intelligence. In this evolving landscape academic scholars face the pressing challenge of deciphering the path to long term organizational prosperity in an era dominated by data. *Data Driven Decision Making for Long Term Business Success* serves as guidance and insights amidst this academic challenge. It is the definitive solution for scholars seeking to uncover the complexities of data driven decision making and its profound impact on organizational success. Each meticulously curated chapter delves into a specific facet of this transformative journey from the implications of modern technologies and pricing optimization to the ethics underpinning data driven strategies and the metaverse's influence on decision making.
