**Totem Poles** Marjorie M. Halpin, 2011-01-01 The massive wood carvings unique to the Indian peoples of the Northwest Coast arouse a sense of wonder in all who see them This guide helps the reader to understand and enjoy the form and meaning of totem poles and other sculptures The author describes the origin and place of totem poles in Indian culture as ancestral emblems as expressions of wealth and power as ceremonial objects as mythological symbols and as magnificent artistic works of the people of the Pacific Northwest Halpin also suggests ways to interpret the motifs and symbols carved on the poles and shows how to recognize the special features which reveal not only the skill of the carver but also his tribal origin

**From the Land of the Totem Poles** American Museum of Natural History, Aldona Jonaitis, 1991 In 1943 French anthropologist Claude Levi Strauss arrived in New York City along with countless refugees from the war in Europe He became a frequent visitor to the North Pacific Hall at the American Museum of Natural History where he could lose himself in what he affectionately called a magic place where the dreams of childhood hold a rendezvous where century old tree trunks sing and speak where undefinable objects watch out for the visitor with the anxious stare of human faces where animals of superhuman gentleness join their little paws like hands in prayer Two and a half million people now visit the Museum each year to share in these enchantments The American Museum houses the most extensive collection of Northwest Coast Indian art in existence It includes material from virtually every Indian group that once lived along the west coast of British Columbia and Alaska In this book Dr Aldona Jonaitis traces the history of this magnificent collection beginning in the late nineteenth century before those coastal peoples had much contact with Europeans and their customs languages and art were still intact Shortly after the collections was formed between 1880 and 1910 Indian culture in this region went into a severe decline to be revived a half century later as another generation of North Americans discovered their heritage The story alternately captivates and distresses Populations were decimated by disease in the last years of the nineteenth century art objects left their makers hands bound for museums all over the world traditional rituals were outlawed and governments exerted strong pressures on the Indians to become assimilated On the other side of the story are the individuals like Franz Boas under whose direction much of the Museum collection was assembled Lt George Thornton Emmons who immersed himself in the native cultures George Hunt prized Kwakiutl informant for Boas and other researchers and Charles Edenshaw master Haida carver and painter whose colorful lives intersect the Age of Museum Collecting Artifacts in the American Museum come alive through the details Dr Jonaitis provides of their cultural context their traditional uses and their acquisition by collectors Viewers see spoons and bowls that held food eaten by Boas at a potlatch feel the spirit power emanating from a shaman s charm removed

from its owner's grave by Lieutenant Emmons sense the sadness behind the display of family crests on a house model carved by Edenshaw. Nearly 100 color plates in the book and numerous historical photographs from the Museum's archives recall a bygone era and are a tribute to the stunning artworks of the North Pacific region. Dr. Jonaitis has written the first book devoted solely to the collection of Northwest Coast Indian art in the American Museum of Natural History. As such, the book is both an essential work for scholars and a valuable resource for the general reader. *Totem Poles and Masks* Mary Nolan, 2013-08-01. Readers will explore different Native American tribes of the Pacific Northwest, gaining an understanding of their art and its importance to their culture. Age appropriate language, vivid imagery, and a relatable narrative will grab students' attention, keeping them engaged while also equipping them with the skills they need to become thoughtful readers. This book provides additional learning opportunities through a graphic organizer, glossary, and index. **Totem poles**, 1998. A look at the civilization along the Pacific Northwest Coast. *Totem Poles [computer File] : Myths, Magic and Monumental Art on the Pacific Northwest Coast* Canadian Museum of Civilization, Nicholette L. (Nicholette Leonee) Prince, 1996.

*Looking at Totem Poles* Hilary Stewart, 2009-09-01. Magnificent and haunting, the tall cedar sculptures called totem poles have become a distinctive symbol of the native people of the Northwest Coast. The powerful carvings of the vital and extraordinary beings such as Sea Bear, Thunderbird, and Cedar Man are impressive and intriguing. In *Looking at Totem Poles*, Hilary Stewart describes the various types of poles, their purpose, and how they were carved and raised. She also identifies and explains frequently depicted figures and objects. Each pole shown in a beautifully detailed drawing is accompanied by a text that points out the crests, figures, and objects carved on it. Historical and cultural background are given, legends are recounted, and often the carver's comments or anecdotes enrich the pole's story. Photographs put some of the poles into context or show their carving and raising. **The Modern Growth of the Totem Pole on the Northwest Coast** Marius Barbeau, 1965. **Seeking Justice Beyond Legalism** Isabelle Lefroy, 2018. This thesis attempts to illuminate and problematize the marriage of capitalism and colonialism that results in the widespread appropriation of Indigenous expressions of culture and, in particular, totem poles. This project complicates our understanding of totem poles as they have been presented in the marketplace and restores some of the intricate legal meaning to these incredible works. First, I examine Canadian intellectual property law and colonial policies of cultural erasure like the potlatch ban. Next, I explore the use of rights discourse or legalism as a potential route for solutions to this issue. I then conduct case studies of three totem poles: I examine one totem pole as a commodity, one functioning as a piece of art and someone's livelihood, and one as part of a Tlingit legal tradition. This last totem, as a materially appropriated object, provides an opportunity to explore the treatment of totem poles in proper context and also functions as a suggested solution to Indigenous art appropriation more broadly. My intervention on this last totem reframes these issues in a non-Western legal cannon to attempt to address these difficult legal questions. My examination of these three totems serves to destabilize our understanding of totem poles sold in the

marketplace and to broaden our understanding of totems as manifestations of Indigenous laws      **From the Land of the Totem Poles** Aldona Jonaitis,1994      **Understanding Northwest Coast Art** Cheryl Shearar,2008-09-01 Easy to use and easy to read Understanding Northwest Coast Art is an essential source for understanding and visually identifying the underlying themes and subjects of Northwest Coast Native art The first section of this book features an alphabetical list of words relating to Northwest Coast art with definitions descriptions and explanations and synopses of the major myths associated with them As an aid to identification and understanding many of the crests beings and symbols are illustrated in the 60 black and white reproductions of contemporary works of art The second section offers descriptions of the art styles and types of decorated objects created by the various Northwest Coast cultural groups      **People of the Totem** Norman Bancroft-Hunt,1979 Examines the way of life artifacts and beliefs of the Northwest Coast Indians      **Monuments in Cedar** Edward Linnaeus Keithahn,1945 The totem poles of the Pacific northwest coast Washington B C and Alaska      **A Totem Pole History** Pauline R.
