Hiroshima Nakazawa Keiji, 2010-11-16 This compelling autobiography tells the life story of famed manga artist Nakazawa Keiji Born in Hiroshima in 1939 Nakazawa was six years old when on August 6 1945 the United States dropped the atomic bomb His gritty and stunning account of the horrific aftermath is powerfully told through the eyes of a child who lost most of his family and neighbors In eminently readable and beautifully translated prose the narrative continues through the brutally difficult years immediately after the war his art apprenticeship in Tokyo his pioneering atomic bomb manga and the creation of Barefoot Gen the classic graphic novel based on Nakazawa's experiences before during and after the bomb This first English language translation of Nakazawa's autobiography includes twenty pages of excerpts from Barefoot Gen to give readers who don't know the manga a taste of its power and scope A recent interview with the author brings his life up to the present His trenchant hostility to Japanese imperialism the emperor and the emperor system and U S policy adds important nuance to the debate over Hiroshima Despite the grimness of his early life Nakazawa never succumbs to pessimism or defeatism His trademark optimism and activism shine through in this inspirational work Global Manga Casey Brienza, 2016-03-09 Outside Japan the term manga usually refers to comics originally published in Japan Yet nowadays many publications labelled manga are not translations of Japanese works but rather have been wholly conceived and created elsewhere These comics although often derided and dismissed as fake manga represent an important but understudied global cultural phenomenon which controversially may even point to a future of Japanese comics without Japan This book takes seriously the political economy and cultural production of this so called global manga produced throughout the Americas Europe and Asia and explores the conditions under which it arises and flourishes what counts as manga and who gets to decide the implications of global manga for contemporary economies of cultural and creative labour the ways in which it is shaped by or mixes with local cultural forms and contexts and ultimately what it means for manga to be authentically Japanese in the first place Presenting new empirical research on the production of global manga culture from scholars across the humanities and social sciences as well as first person pieces and historical overviews written by global manga artists and industry insiders Global Manga will appeal to scholars of cultural and media studies Japanese studies and popular and visual culture Manga's First Century Andrea Horbinski, 2025-10-28 A comprehensive English language history of a beloved medium *Manga's First Century* tells the story of the artists and fans who built a cultural juggernaut Manga is the world's most popular style of comics How did manga and anime moving manga become ubiquitous *Manga's First Century* delves into the history and finds surprising answers In fact manga has always been a global phenomenon Countering essentialist myths of manga's emergence from the deepest wells of Japanese art author Andrea Horbinski shows it was born in the early 1900s a hybrid form that crossed single panel satirical cartoons popular in Europe and America with the Edo period's artistic legacy As a medium manga initially focused on political commentary expanding to include social satire children's comics and

proletarian art in the 1920s and 1930s Manga's evolution into a medium embracing complex long form storytelling was likewise driven by creators and fans pushing publishers to accept new radical expansions in manga's artistic and narrative practices In the 1970s innovative creators and fans empowered a new breed of fan generated comics d jinshi and established robust audiences of adult female and queer manga readers while nurturing generations of amateur and professional creators who continue to enrich and renew manga today
