Wilson, 2017-10-26 Excerpt from *Through Silence to Realization Or the Human Awakening* I shall add nothing here in way of an apology for a new book on lines of practical metaphysics or in way of suggestions either as to unfolding powers within the human or as to methods of bringing them to expression The purpose of the volume is to help students to self mastery and I leave it to these seekers for truth to determine its right to be and endure About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **America and the China Threat** Paolo Urio, 2020-01-01 The US has historically disguised to itself and to others the true nature of its relations with those nations that stood in the way of its ambitions Reversing the order of cause and effect it has projected fear of harm from other nations even as it was expanding its dominion over them With the collapse of the Soviet Union which was so to be feared that the American people could even be told they would be better dead than Red the US rejoiced in the belief that the world was at last under its uncontested leadership celebrating Francis Fukuyama's then acclaimed book *The End of History* and proclaiming perhaps even believing that it alone can assure peace stability and prosperity in the international system However at the beginning of the 21st century a formidable new competitor emerged China Now we hear the fear stoked mantra The Chinese are coming But is China really a threat to the US or just to its sole superpower status This book debunks among many others the myth of the universality of US values and the myth of the imperial dictatorial and state capitalist character of today's China It explains the division between the US and China through an historical analysis of their ideologies It reveals the source of the extraordinary difficulty the US faces in adapting to the changes occurring in the

international system inter alia the firm belief in its exceptionalism and good intentions By contrast the Chinese ideology while also possessing a remarkable internal coherence through time has achieved greater flexibility by integrating values imported from the West and several Confucian values to form a new ideology better able to adapt its public policies to changes in the national and the international environments China's significant military and economic advances are addressed along with its new investments and One Belt One Road Initiative
