Toxic Beauty The Art Of Frank Moore:

Toxic Beauty Klaus Kertess, Frank Moore, 2012 *Toxic Beauty The Art of Frank Moore* is the most comprehensive presentation to date of work by this remarkable artist whose life was cut short by AIDS Curated by independent scholar Susan Harris with Grey Art Gallery director Lynn Gumpert the exhibition features approximately 35 major paintings and over 50 gouaches prints and drawings as well as numerous sketchbooks films maquettes source materials and ephemera The exhibition is accompanied by an amply illustrated catalogue with essays by Susan Harris renowned critic Klaus Kertess and artist activist Gregg Bordowitz Harris evokes a compelling portrait of the multitalented artist as revealed through his personal papers and notebooks Kertess examines Moore's recurrent themes and eclectic influences while situating the artist's work within a larger art historical context Finally Bordowitz sheds light on Moore's passionate AIDS activism and how his work conveys feelings of loss fear and hope as well as gay male identity during the early days of the pandemic The catalogue will also include a selected bibliography chronology and excerpts from Moore's own writings Both the exhibition and catalogue will highlight previously unpublished archival material such as sketchbooks and documents culled from the vast Frank Moore Papers totaling 44 linear feet housed at NYU's Fales Library These archival materials provide fascinating insights into Moore's life and work the sketchbooks reveal his penchant for journaling and his extraordinary draftsmanship The drawings include detailed preparatory studies for his large scale paintings and custom crafted frames as well as lighthearted vignettes of a more personal and even humorous nature Publisher's website [Engaging Art](#) Roslyn Bernstein, 2020-05-14 This book explores the tangled texture of the art world a curious and mysterious space In 60 essays drawn from around the globe it reveals new dimensions about how artists make their art resist censorship and retain an independent creative spirit The essays ask and answer several crucial questions How do artists in Europe the United States Asia the Middle East and Latin and South America find space to live and work How do artists follow their talent to make and exhibit original art in a politicized world where artistic freedom is often limited How do smaller artistic venues survive the economic pressures and competition in the art market Focusing on under the radar subjects the reports interviews and essays illuminate the pain and pleasures of artistic production and the challenges faced by artists curators and gallerists

[Disability Studies and the Environmental Humanities](#) Sarah Jaquette Ray, Jay Sibara, 2017-06 Although scholars in the environmental humanities have been exploring the dichotomy between wild and built environments for several years few have focused on the field of disability studies a discipline that enlists the contingency between environments and bodies as a foundation of its scholarship On the other hand scholars in disability studies have demonstrated the ways in which the built environment privileges some bodies and minds over others yet they have rarely examined the ways in which toxic environments engender chronic illness and disability or how environmental illnesses disrupt dominant paradigms for scrutinizing disability Designed as a reader for undergraduate and graduate courses *Disability Studies and the*

Environmental Humanities employs interdisciplinary perspectives to examine such issues as slow violence imperialism race toxicity eco sickness the body in environmental justice ableism and other topics With a historical scope spanning the seventeenth century to the present this collection not only presents the foundational documents informing this intersection of fields but also showcases the most current work making it an indispensable reference **Mouse Muse** Lorna

Owen,2014-11-18 A beautifully designed introduction to art history by way of artworks that feature the mouse from the ancient world to drawings by Picasso Disney and Art Spiegelman Across centuries and civilizations artists have used the mouse the planet s most common mammal after us to illustrate our myths and beliefs Mice have appeared as Japanese symbols of good luck or medieval emblems of evil in Arab fables Russian political satire and Nazi propaganda as scientific tools and to help us challenge the way we see nature With more than 80 rarely reproduced works including paintings by Hieronymus Bosch and Gustav Klimt a silkscreen by Andy Warhol a print by Hokusai a photograph by Andr Kert sz a sculpture by Claes Oldenburg a video installation by Bruce Nauman a performance by Joseph Beuys and many more Lorna Owen has created an engaging presentation of an extraordinary range The pieces which represent every period of visual art are accompanied by Owen s intriguing text about the story behind each work She has combined her passion for art and her empathy for the unsung archetype of the animal kingdom to explain not only how or why the artist came to use the mouse as a subject but how the art in the end reveals more about us than it could ever reveal about this humble creature **HIV in**

World Cultures Gustavo Subero,2016-04-22 This book analyses the way that HIV AIDS is often narrativised and represented in contemporary world cultures as well as the different strategies of remembrance deployed by different sub cultural groups affected by the illness Through a close study of a variety of cultural texts including cinema literature theatre art and photography amongst others it demonstrates the trajectory that such narratives and representations have undergone since the advent of the discovery of the disease in the 1980s Acknowledging the central yet often overlooked role that cultural products have played in the construction of public opinion towards the condition itself and those who suffer it this ground breaking volume focuses on a variety of narratives as well as strategies of coping with HIV AIDS that have emerged across the globe Bringing together research on the UK North and South America Africa and China it provides rich textual analyses of the ways in which the HIV positive body has been portrayed in contemporary culture with attention to the differences between specific national contexts whilst keeping in view a space of commonality amongst the different experiences reflected in such texts As such it will be of interest to social scientists and scholars of cultural and media studies concerned with cultural production and representations of the body and sickness **Jellyfish** Peter Williams,2020-04-13 Jellyfish are like the mythical Medusa both beautiful and potentially dangerous Found from pole to tropic these mesmeric creatures form an important part of the sea s plankton and vary in size from the gigantic to the minute Perceived as almost alien creatures and seen as best avoided jellyfish nevertheless have the power to fascinate with the sheer beauty of their translucent bells and

long trailing tentacles with a mouth that doubles as an anus and without a head or brain Drawing upon myth and historical sources as well as modern scientific advances this book examines our ambiguous relationship with these ancient and yet ill understood animals describing their surprisingly complex anatomy weaponry and habits and their vital contributions to the ocean s ecosystems
